

Language Lab and Communication Skills

English lab provides opportunities for the students to practice and fine tune their language skills. Both the English lab workbook and the language software provided by K-VAN Solutions integrate the following activities that are aimed at enriching English language fluency of the learners. While some activities are practiced in ELCS labs, the other activities are meant for AECS lab where students are trained in activities that are very practical in nature in terms of preparing students for life after academics.

Lab Activities and events:

1. Ice-breaking activity: Ice-breakers are speaking activities used with a new class in order to give the learners an opportunity to meet each other. In order to complete an ice-breaker task learners must talk to each other. These allow the new comers to talk to each other and know each other well. For the teachers such ice breakers give an opportunity to identify the learners and form an initial assessment of them when they start talking about themselves. This also allows the learners to work in teams and participate in collaborative learning. As the learners involve in team work and interact personally with each other, they also establish personal bonding essential for successful learning. Some of the ice-breaking activities include Just One Lie, Unique and Shared etc.

2. JAM session: 'Just a Minute' is an impromptu speech test conducted with the time limit of one minute. The students are trained to speak coherently and meaningfully on a given topic within a span of one minute. More than a test of knowledge, JAM can be seen as a test of wit and presence of mind. Many recruitment drives use this test to assess a candidate's language skills. The teacher encourages the students to participate in JAM sessions in order to improve their language fluency and accuracy. Before the session the teacher prepares a list of topics which are then randomly given to each student to speak. The students are advised not to hesitate when they speak. They are also told not to repeat and deviate from the topic.

3.Report on:

Essay writing on Domestic Violence for I.B.Tech Students.

04.10.2014

CMR COLLEGE OF ENGINEERING & TECHNOLOGY
Kandlakoya (V), Medchal Road, Hyderabad -501401.

ESSAY WRITING ON
DOMESTIC VIOLENCE
4th October, 2014

Conducted by
English Department
CMR College of Engineering & Technology

The department of English conducted an essay writing on “**Domestic Violence**” for I B.Tech students in CMR College of Engineering & Technology on **04th October 2014**. Many students participated in the essay writing. There was good response from the students. Senior students helped in conducting the essay writing competition. The faculty thanked the senior students, the supporting the faculty and the management.

Outcome of the Event

Writing encourages and enhances critical thinking, creative thinking and helps in organizing thoughts and improve communication skills. **Writing** also improves develop professional arguments about a topic and articulate opinions. It also helps in better presentation of facts. For students, good writing skills are important also when writing their SOP (Statement of

4.Role Play: Role Play is any speaking activity where one either puts oneself into somebody else's shoes or one may put oneself in an imaginary situation. Thus the learners can themselves to be the president or the prime minister of a country. They then can enact the role using appropriate language. Such activities make learning enjoyable and interesting. Enacting imaginary situations allow the students to practice language needed for such situations. Such situations as checking in at hotel, requesting for directions help the learners to understand the practical nature of language. Students who find participating in conversations and dialogues uncomfortable can use role play as a means to express themselves.

5. Giving Directions: This is another practical activity that helps the learner to deal with various situations in the real world. Here the learner is taught how to ask for directions and give directions to another in English. The teacher divides the students into pairs and gives some hypothetical situations. The students then are asked to ask for directions, followed by answers.

6. Group discussions: Group Discussions have become a part of recruitment processes where the representatives of the recruiting organization observes the oral skills and other inter-personal skills of the participants before short listing them for the next round. CMRCET has an exclusive room with round tables for group discussions. The students are given various topics for the discussions. Their performance is observed by the teacher and a feedback is given. The students are told about the importance of taking initiative in a group discussion. They are also explained about the importance of listening to others so that they can intervene at the right time. The language software allows the student to observe the videos of sample discussions and improve their performances.

7. Interview Skills: For students of professional courses like engineering the biggest challenge is to succeed at the interviews. The lab activities help the students to understand the necessary preparations for any interview. The students are introduced the ideas of pre-interview planning and preparation. They are also taught the need to understand the job profile before actually attending the interview. The students are also taught to prepare well for the interview by brushing up the basics. The teacher conducts mock interviews for the students to expose them to interview like situations.

8..Resume writing: Preparing one's resume is one of the most important of any student's transition from college to career. While understanding the structure of resume is important, what goes into making a good resume is even more important. In the lab the students are taught how to structure their resume in terms of their career objective, profile, achievements and skills. They are also taught to keep their resume brief. Most importantly the students are encouraged to participate in various cultural and technical events which find their way into their resume. It is because mere academic qualifications will not fetch them a job.

9. Technical Report writing: Careers in industry or for that matter any career calls for report writing skills. Keeping in view of the requirements of both the industry and the students, the language lab included report writing in its syllabus. In the lab the students are introduced to the basic purpose of a report: the spoken or written account of something that one has observed, heard, seen, or studied. The students are introduced to the three formal aspects of a report: preliminaries, main part and the supplementaries. The preliminaries include title page, terms of reference, contents, list of tables or diagrams, acknowledgements and summary. The main part includes the introduction, methodology, results, discussion and conclusions or recommendations. The supplementary includes the references, appendices and glossary.

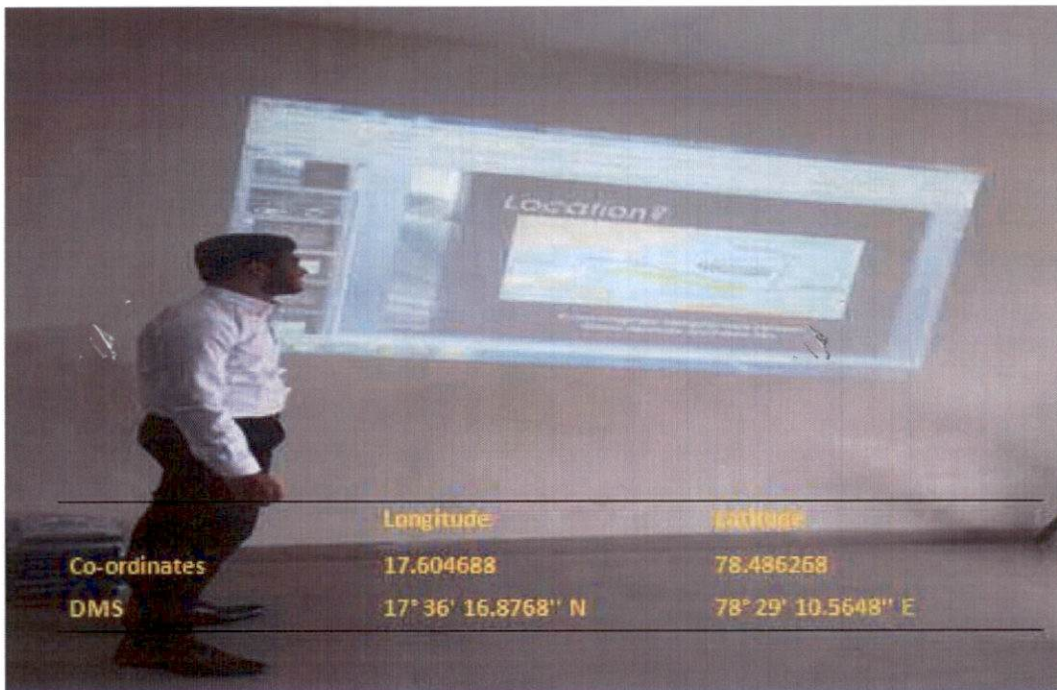

Power point presentations: PPTs have become a part of a professional's life. Irrespective of one's profession, each one of us use PPT as tool of presentations. Thus one should know how to use such modern tools. In the language lab PPT are used to present one's ideas and thoughts to the audience. They supplement one's efforts to convey one's ideas in the form of tables, illustrations. But the students are cautioned not overuse them as complete dependence on them can defeat the very purpose of using them

CMR College of Engineering & Technology

Elocution

The Department of English, CMRCET, conducted an elocution for the students on 6th March 2015. The first year and the second year B.tech students actively participated and spoke on “Unity in Diversity.” The students explained how unity makes a country strong and how diversity is a source of strength. The senior students from the third and fourth year B.tech supported the faculty in organizing the event. The judges appreciated the participation of the students. They declared the following students as the winners in elocution.

11. Language quiz

The Department of English conducted a language quiz for the first and the second year students of B.tech on 7th March 2015. The students were divided into different teams. The language quiz tested the students' knowledge of English grammar, vocabulary, phonetics and punctuation. The faculty from the department acted as quiz masters for the event. The senior students and other volunteers helped the faculty in making the event successful.
