Strategic Perspective Plan for the Academic Year 2018-19

Sl. No.	Date of the Event	Dept./Club	Name of the Event	Budget for the event	Details
1	21-07-2018	Niruja Health Club	Awareness campaign on Dengue Fever	5000/-	Dengue cases are on the steep rise. It is surprising that in rural areas every family has at least one member infected by it. Such is the seriousness of the issue. Keeping this on mind Niruja Health club is decided to organize an awareness campaign on dengue fever to one of the near-by villages in the Medchal District.
2	29-08-2018	Niruja Health Club	World Hepatitis-B Day (28 July)	-NIL-	On account of World Hepatitis-B day, it will be good to conduct an awareness program on the same to the students.
3	04-01-2019	Niruja Health Club	Awareness campaign on Asthma	7500/-	Asthma and its ailments are not known to many. Even today many treat it as small disease and neglect it particularly in rural areas. So Niruja Health club is palling to conduct an awareness campaign on Asthma to one of the villages close to CMRCET and make them aware about the asthma.
4	16-03-2019	Niruja Health Club	World Health Day(Apr. 7 th)	-NIL-	Health is very important to the Human beings for their development and in turn society. Having due regard to this and to make the students of CMRCET healtholic conducting such an event is pivotal.

REPORT ON DENGUE FEVER PREVENTION CAMPAIGN

Niruja Health club has decided to conduct awareness campaign on Dengue fever prevention to the people of Rajabollaram village Medchal. So, Dr. David briefed the student volunteers of club about the dengue and its ailments. Dengue fever, also known as breakbone fever, is a mosquito-borne infection that can lead to a severe flu-like illness. It is caused by four different viruses and spread by *Aedes* mosquitoes. Symptoms range from mild to severe. Severe symptoms include dengue shock syndrome (DSS) and dengue haemorrhagic fever (DHF). These usually require hospitalization. There are currently no vaccines. The best method of prevention is to avoid mosquito bites. Treatment is possible if diagnosis occurs before the patient develops DSS or DHF. Inspired by this students decided to conduct awareness campaign in "Raja Bollaram Village and thereby creating awareness among rural people regarding and causes and consequences of Dengue. At first they took permission from Gram sarpanch and then asked about the sanitation condition of the village. After that they went house to house and explained about the fever and its symptoms. Student volunteers urged all the villagers to keep their surroundings clean. Students also felt very happy about the campaign

OUTCOME:

After conducting the awareness campaign villagers felt very happy and thanked the Niruja Health club for conducting such an event.

Beneficiaries: Villagers of Rajabollaram, student volunteers and some club faculty have come to know about the Dengue fever its symptoms and also the importance of keeping the surroundings clean.

REPORT ON AWARENESS PROGRAM ON HEPATITIS-B

The Niruja Health Club of CMRCET conducted awareness program on Hepatitis-B at CMRCET EEE Seminar Hall Block-II on 29/08/2018. The inaugural speech is given by Dr.V.A.Narayana, Principal CMRCET. Later Dr. David, Convener Niruja health club enlightened all the members present on Hepatitis-B. He said that Hepatitis B is a potentially life-threatening liver infection caused by the hepatitis B virus (HBV). It is a major global health problem. It can cause chronic infection and puts people at high risk of death from cirrhosis and liver cancer. Hepatitis B is a viral infection that attacks the liver and can cause both acute and chronic disease. The virus is most commonly transmitted from mother to child during birth and delivery, as well as through contact with blood or other body fluids. It can be prevented by vaccines that are safe, available and effective. Symptoms may not show up until 1 to 6 months after you catch the virus. Jaundice, coloured poop, Fever, Fatigue that persists for weeks or months, Stomach trouble like loss of appetite, nausea, and vomiting etc., There is no specific treatment, cure, or medication for an acute HBV infection. Supportive care will depend on the symptoms.

OUTCOME:

All the members attended the program came to know about the Hepatitis-B and its ailments.

Beneficiaries:

Total of one hundred students, ten faculty and five staff have gained a lot of experience from the awareness program.
