Dear Sir,

Sub: Requesting permission to conduct an EQUAL OPPORTUNITIES CENTRE (EOC) event on 22/08/2015

I, Dr. M. Venkateshwarlu convener of the EQUAL OPPORTUNITIES CENTRE (EOC) and associate professor of civil department earnestly requesting your permission through IQAC Co-Ordinator to conduct an EOC event.

Date of Event: 22/08/2015

- Name of event: A Lecture on "Coaching programme on Employability skill for Engineering students" by Prof. Ramana Rao, to among the students by creating awareness and guiding the students in self-analysis and in acquisition of skills
- Venue of event: Civil seminar hall Block-II
- Target audience: students
- Resources required from college – Auditorium
- Amount Required : nil
- Faculty, staff and students involved in the event :list enclosed
- Invitation Letter to the Guest: Enclosed.

I request you to grant me permission and do the need full.

Thanking you

Dear Sir,

Sub: Invitation to deliver a guest lecture on the "Coaching program on Employability skill for engineering students".

I, Dr M Venkateshwarlu, convener of the EQUAL OPPORTUNITIES CENTRE (EOC) and Associate professor of civil department, earnestly request you to visit our college on 22/08/2015 at 10.00 AM to deliver a guest lecture on the "Coaching programme on Employability skill for engineering students".

I request you to comply with my request and visit the college for noble cause on the scheduled day to brief our students

Thanking you

Yours sincerely

A Report on "One Day Seminar on Employability Skills for Engineering Students"

A professional course program like engineering strives to get the maximum number of its students placed through campus interviews. While communication skills have been added in all the engineering courses with the aim to improve their performance in placement, the syllabus mostly concentrates on the development of four language skills. The students are not made aware of the employability skills and their significance. In order to create awareness program among the students of engineering about the need to develop employability skills along with the technical skills, it has been decided to conduct one day seminar on employability skills. The students were explained about the gap that exists between academics and the industry by Prof. Ramana Rao JNTUH Hyderabad. There is a need to bridge the gap between them through strong interaction with the industry. It involves identifying the skill set that the industry is looking for in the engineering graduates. In this context the Equal opportunity cell of CMR College of Engineering & technology organized one day coaching programme on "Employability Skills" for the students of Engineering on 22nd August 2015. Dr.M. Ramalinga Reddy, Principal of CMRCET, inaugurated the seminar and in his presidential address exhorted the students to hone their employability skills such as problem solving skills, soft skills, communication skills and analytical skills to become job ready. The principal exhorted the students to work on their behavioural attitude as knowledge alone will not lead to success.

Employability Skills for Engineering Students

S.No	Date	Time/ Batch	Activities	No. of Students Participated
1.	22.08.2015	Fore Noon Batch 1	Problem solving skills & communication language	35
2.	22.08.2015	After Noon Batch 1	Group Discussion	35

Earlier the EOC Co-Ordinator, Dr. M. Venkateshwarlu welcomed the gathering K.Suresh, Professor and head, Department of Civil proposed vote of thanks.

PRINCIPAL
CMR COLLEGE OF ENGG. & TECH.
Kandlakoya (V), Medchal Road,
Hyderabad-501401.

He complemented the Placement Cell for the effective functioning in arranging various activities besides preparing the Placement brochure for the college. He added that it is more fitting that the EOC whose main aim is to ensure indiscrimination among the students in every aspect is organizing the programme. He gave a word of caution that those indulging in any sort of discrimination in the college will be seriously dealt with.

Benefits: Problem solving and the ability to make an effectual decision are the keys of good management.

Report on Entrepreneurship and Incentives provided by State and Central Government

The objective of the Equal opportunity Cell is to help and empower the students. In this context Equal Opportunity cell made an attempt to create awareness about the financial assistance for the students in their career. On 29th January, 2016 Equal opportunity cell of CMRCET organized an awareness program on how to apply for scholarships online by M. Suresh. The program highlighted various types of scholarships available to the students. They are listed below:

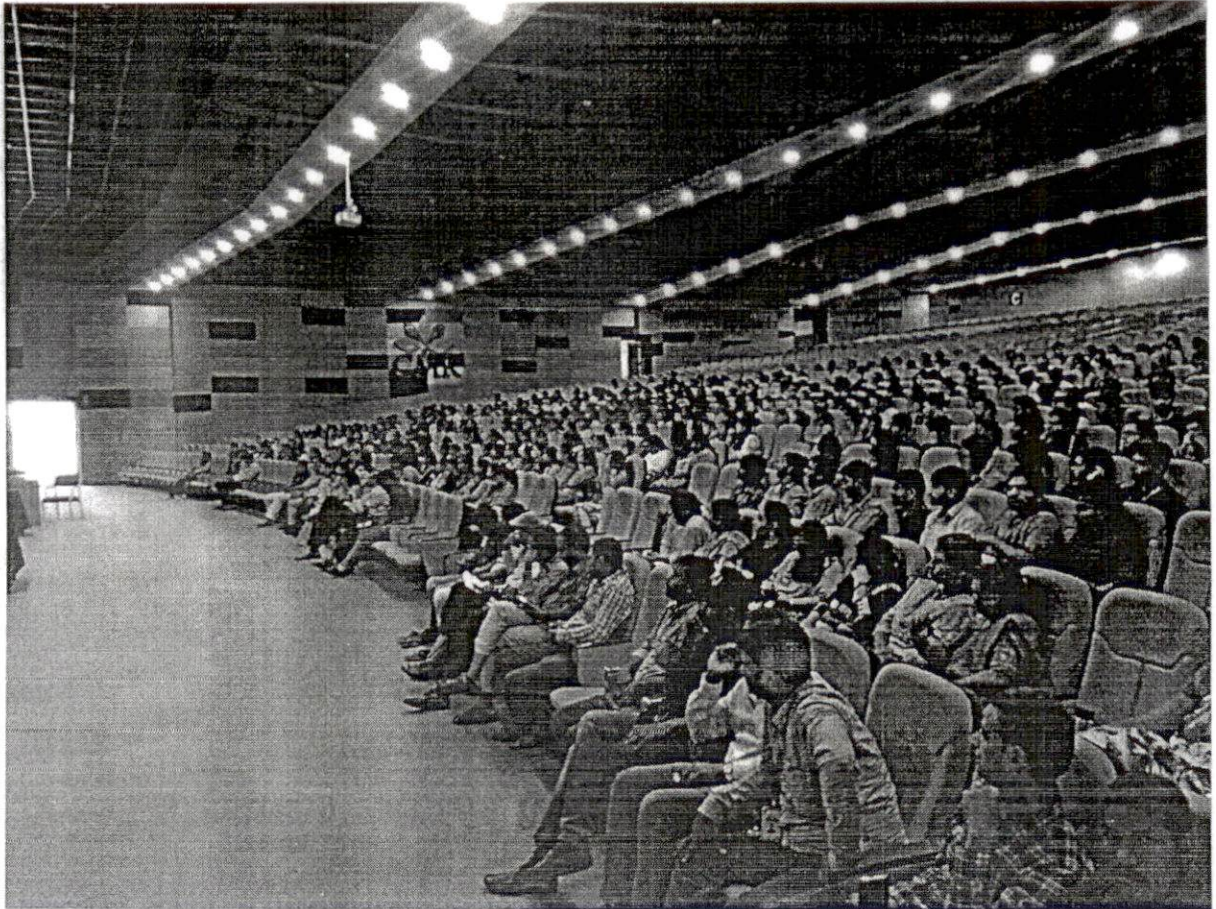

- Academic scholarships
- Average academic performance scholarships
- Athletic scholarship
- Scholarships for minorities
- Scholarships for women
- Creative scholarship
- Unusual scholarships
- Community service scholarships

PRINCIPAL

CMR COLLEGE OF ENGG. & TECH.
Kandlakoya (V), Medchal Road,
Hyderabad-501401.

M. Suresh clearly explained about the importance of scholarships in pursuing their academics and later in their careers. Moreover it is extremely costly to pursue higher studies abroad. Thus scholarships play an important role in any student's life. Applying online for scholarships is a very useful and time saving tool. As many sections of the society are not in a position to educate their children on their own, the Government of India made various types of scholarships available. Thus there are scholarships exclusively for women, SC/STs, and other economically weaker sections of the society.

A student is allowed to avail the scholarship either under the State Scheme or Centrally Sponsored Scholarship Scheme, whichever is beneficial to him/her but can apply only under one scheme.

The Department for the Welfare of S/ST/OBC/Minorities is implementing this scheme through DSFDC.

Report on Road Safety Awareness

A Seminar on "Road Safety for Divyangs" was held at CMRCET, Hyderabad on March 23, 2015. Professor B Prasad gave informative lecture to the students. Professor B. Prasad informed the students that owing to the violation of traffic rules on roads by the under aged, driving on roads has become very unsafe for the old and the disabled. He presented shocking statistics about the victims of the road rage. According to Road Accident Statistics India, 1214 road crashes occur every day in India. 20 children under the age of 14 die every day due to road crashes in the country. One serious road accident in the country occurs every minute and 16 people die on Indian roads every hour.

They made students aware of the newly passed Road Safety Juvenile Driving Laws. According to the recently implemented Road Safety Bill 2016 the guardian /owner shall be deemed to be guilty in cases of offences by the juveniles and juvenile shall be tried under JJ act. The students enjoyed the interactive session with professor Prasad and were inspired to take the message back home about how critical road safety is. They were given the responsibility of ensuring that their family members follow the rules of the road, as breaking rules might be dangerous or fatal. Professor B Prasad explained the risks of driving carelessly on the roads. He requested the under aged students not to drive vehicles recklessly on the road and to be civic conscious citizens.

The Principal Dr M Ramalinga Reddy and professor Prasad flagged off the safety walk at which teachers, college bus drivers, cleaners and other support staffs were present. The students walked till the Kandlakoya area and spread awareness by holding placards with messages of safety on the roads while driving and walking, shouted slogans and distributed pamphlets. The policemen who were on duty on Medchal Road, assisted in the smooth movement of traffic and safety of the students on the walk.

Benefits of Road Safety Barriers

Roads and highways should be designed and constructed in a way that ensures and guarantees safe, effective, convenient and efficient transportation of people and different kinds of goods or materials. It is always recommended and it is expected for drivers to travel at speeds which are appropriate to the conditions of the roads in order to reach their final destination in a safe manner. Still, car accidents and crashes are common unwanted events. Every year the number of car crashes and accidents in Telangana state.

There are many reasons why car accidents happen on the roads, such as:

- Driver's driving habits or error
- Driving over speed limits
- Driver's fatigue
- Alcohol or drug consumption
- Mechanical failure of the vehicle
- Tough weather conditions such as rain, snow, wind etc.

PRINCIPAL
CMR COLLEGE OF ENGG. & TECH.
Kandlakoya (V), Medchal Road,
Hyderabad-501401.

When drivers lose control over their vehicles, there are high risks of collisions and impacts with other vehicles or objects near the road. Therefore, the roads and highways need to be constructed and designed with safety road barriers. Road safety barriers are described as vehicle protection systems which are specially designed to protect the vehicles on the roads, to save many lives and to be maintenance free for at least 30-50 years.

Outcomes

1. It recognises that prevention efforts notwithstanding, road users will remain fallible and crashes will occur.
2. It stresses that those involved in the design of the road transport system need to accept and share responsibility for the safety of the system, and those that use the system need to accept responsibility for complying with the rules and constraints of the system.

Report on Workshop on "Computer Applications for Higher Education".

A workshop was conducted at CMR College of Engineering and Technology for the 2019 year students on 12-10-2015 by CMR College of Engineering & Technology, to orient the students about the various computer applications the students can learn that can help them in their higher education and to secure a job after they complete their engineering education. For this purpose, Mr. /Ms. Professor A V S S Kumara Swami Gupta from JNTUH organization visited the campus to abreat the students about the various Computer application courses that are generally available and essential for the engineering students (both certificate and non-certificate courses) in web designing, graphic designing, etc which provide a forum on the innovative uses of computers and software tools in education and for accelerating the integration of computers into the engineering curriculum.

Some programs focus more on operating basic software such as Microsoft Office while others focus on more intermediate and advanced topics such as using HTML, graphics design software such as Adobe in Design, Adobe's photo-editing application Photoshop and Computer languages and Programming.

The workshop was conducted successfully and ended with the Q and A session which was very interactive.

The event was inaugurated by our beloved Principal, M. Ramalinga Reddy. The inauguration was attended by 5th SEM B.Tech students and faculty members.

We thank our beloved Sri Ch. Gopal Reddy CMRGI for encouraging organizing such events
