Sub: Request to conduct a MOOC Development Workshop on 6th, 7th October 2018

Respected sir,

We are the department of Computer Science and Engineering, planning to conduct a workshop on MOOC development under leadingindia.ai initiative. The Prof. Parateek Bhatia will be giving a two days workshop on MOOC development. We would like to request for your permission and support to conduct a workshop.

Prof. Parateek Bhatia will be doing complete hands on regarding the best practices of developing MOOCs. Hence It will be important for all the teachers in the institution to attend the workshop to enhance teaching. They are expecting 100 faculty to attend the workshop. We also request you to nominate 100 faculty from all the departments.

The leadingindia.ai will pay his travel and honorarium. We need to take care of local transport, accommodation and hospitality. So we request you to sanction 15000/- rupees for the arrangements of workshop.

The workshop will take place in CSE CC2 room 302 on 6th and 7th October 2018.

Thank you for your consideration and waiting to hear from you.

To,

Dr. Parteek Bhatia,

Dept of CSE,

Thapar University,

Hyderabad-500007

.Dear Sir,

Sub: Invitation to deliver a lecture and hands on session on the MOOC Development workshop”.

I, Mr. K. Venkateswara Rao, coordinator of the workshop, Dept of CSE, earnestly request you to visit our college on 06/10/2018 and 07/10/2018 to deliver a lecture and hands on session on the :MOOC Development Workshop”.

I request you to comply with my request and visit the college for noble cause on the scheduled days to brief our faculties regarding development process of MOOC Courses.

Thanking you

Yours sincerely

(Mr K Venkateshwara Rao)

To: vrkatevarapu@gmail.com

Cc: Deepak Garg <deepakgarg108@gmail.com>

Dear Sir

I am sending you the proposed contents of MOOC workshop.

1. Everything you need to know about MOOCs.
2. MOOCs development life cycle.
3. Opportunities to teachers in the age of information technology.
4. How to develop your own video lectures with Adobe Presenter and other relevant software.
5. Hands on Session on Adobe presenter and other relevant software for effective use of ICT in our day to day teaching practice.
6. How to launch your own course on portal like udemy and launching your own YouTube channel to share contents with larger audience.
7. Demonstration of video lectures prepared by participants.

Please suggest some changes if any or any other specific topic which you wish to be covered for this workshop.

It is suggested to ask all participants to come with laptop and installation of Adobe Presenter on it.

With regards

Venkateswara Rao .K <vrkatevarapu@gmail.com>

Biography

Parteek Bhatia is an Associate Professor in the Department of Computer Science and Engineering at Thapar Institute of Engineering & Technology, Patiala. He has more than eighteen years of academic experience, including six years at D.A.V College Amritsar. He has earned his B.Tech from SLIET and MS from BITS Pilani. He has completed his Ph.D on "UNL Based Machine Translation System for Punjabi Language" from Thapar Institute of Engineering & Technology. He has published more than 75 research papers and articles in Journals, Conferences and Magazines of repute. His research work with UNDL foundation, Geneva, Switzerland involved participation in Advanced UNL School at Alexandria, EGYPT in 2012 and at Geneva, Switzerland in 2013 and 2014. He is a winner of Gold Medal at International competition UNL Olympiad II, UNL Olympiad III and UNL Olympiad IV conducted by UNDL Foundation in year 2013 and 2014. He has authored six books including Simplified Approach to DBMS, Simplified Approach to Visual Basic and Simplified Approach to Oracle. He is acting as Principal Investigator of DST Funded research project on "Automatic Generation of Sign Language from Hindi Text for Communication and Education of Hearing Impaired people". He is acting as Co-PI on Royal Academy of Engineering (UK) funded research project on "Innovative Research in Pedagogy with Mini-MOOCs blended with instruction strategies to enhance quality in Higher Education". He has successfully completed research Project on Development of Indradhanush: An Integrated WordNet for Bengali, Gujarati, Kashmiri, Konkani, Oriya, Punjabi and Urdu Sponsored By Department of Information Technology, Ministry of Communication and Information Technology, Govt. of India.

Research Projects

- Acting as Principal Investigator for ongoing three years SEED Division of DST funded (INR 17.26 lakhs) research project titled as "Automatic Generation of Sign Language from Hindi Text for Communication and Education of Hearing Impaired people".
- Acting as Co-Principal Investigator for ongoing research project titled as "Innovative Research in Pedagogy with Mini-MOOCs blended with instruction strategies to enhance quality in Higher Education" funded by International Royal Academy of Engineering (UK) Of 1,00,000GBP for two years.
- Successfully Completed DoECT funded (INR 19.234 lakh) three years research project titled as "Development of Indradhanush: An Integrated WordNet for Bengali, Gujarati, Kashmiri, Konkani, Oriya, Punjabi and Urdu" as Co-Principal Investigator.

Membership of Professional Institutions, Associations, Societies

- Life member of ISTE (Indian society for technical education)
- Association for Computing Machinery (ACM)

Non-SCI: 86**Mini MOOC Course on SQL**

Mini MOOC on Beginning SQL: A Simplified Approach has been developed to equip the learners to perform basic operations on database, joining of tables and aggregation of data in SQL.

This course has been developed as the outcome of Innovative Research in Pedagogy with Mini-MOOCs blended with instruction strategies to enhance quality in Higher Education" sponsored by Royal Academy of Engineering (UK), and Thapar Institute of Engineering & Technology, Patiala.

This course has been running at FutureLearn Platform (4th largest online course portal similar to Coursera) from Sept 2017 on invitation basis for Indian students.

The unique feature of this course is that it has been specially designed according to the needs of Indian learners (or Asian Continent learners). We know that our students face problems during learning from video lectures in terms of language used in these sessions, accent and pace of presenter, complexity levels of contents and limited engagement by the presenter etc.

To cater our learners effectively, all the video lectures have been developed bi-lingual. It means all video lectures are available in English as well as in Hindi language. For every topic, you will get two options for video lectures; you can watch it in English or in Hindi. However, in Hindi lectures, Hindi has been used as mode for communication while contents have been provided in English language, because ultimately learner has to reproduce the concept in English during examination or placement interview.

Awards and Honours

- Gold Medalist in UNL Olympiad II, III and IV conducted by UNDL Foundation Geneva in year 2013 and 2014.

Deion of Research Interests

I always want to do research for the benefit of society. The digital divide among different societies made me to ponder on ways to bridge this divide. After analyzing different factors of digital divide, language barrier appears to be as the major hindrance for the spread of knowledge. To bridge this divide, Universal Networking Language (UNL) is very promising platform. UNL is an artificial language that is based on interlingua approach by using EnConversion (conversion of source language to UNL) and DeConversion (conversion of UNL to target language) processes. I pursued doctorate thesis on "UNL Based Machine Translation System for Punjabi Language" in year 2012 from Thapar Institute of Engineering & Technology, Patiala.

My work on UNL gave me opportunity to work with UNDL foundation, Geneva under advanced international UNL schools conducted at IIT Bombay in year 2012, Alexandria Egypt in 2013 and UNDL Foundation, Geneva in year 2013 and 2014 where I represented Punjabi and Hindi languages. My participation in these schools was fully funded by UNDL foundation, Geneva. My work on UNL also got recognized when I became gold medalist in International UNL Olympiad II in year 2013. I also got gold medal in UNL Olympiad III and UNL Olympiad IV conducted by UNDL foundation in April 2014 and December 2014 respectively. I also got recognition for developing best grammar for EnConversion and DeConversion for Punjabi and Hindi languages.

http://www.unlweb.net/wiki/II_UNL_Olympiad (http://www.unlweb.net/wiki/II_UNL_Olympiad) http://www.unlweb.net/wiki/III_UNL_Olympiad (http://www.unlweb.net/wiki/III_UNL_Olympiad) http://www.unlweb.net/wiki/IV_UNL_Olympiad (http://www.unlweb.net/wiki/IV_UNL_Olympiad)

I am also working with my PhD research scholar on developing multilingual Question-Answering system by using UNL. I have published quality research papers on subject area in reputed SCI journals. I have also successfully completed following projects of UNDL foundation for developing lexical resources for Hindi and Punjabi language.

Development of Punjabi WordNet

I got the opportunity to work with pioneers of NLP like Dr. Pushpak Bhattacharya and Dr. Rajiv Sangal during my work as Co-PI for Department of Electronics and Information Technology (DeITy) funded research project titled "Development of Indradhanush: An Integrated WordNet for Bengali, Gujarati, Kashmiri, Konkani, Oriya, Punjabi and Urdu" under a consortium consisting of 8 institutes lead by IIT Bombay, Mumbai. We have developed Punjabi WordNet, an important lexical resource as the outcome of this project. WordNet maintains Synsets that represent each concept in a language. Synset is composed of gloss, example sentences and set of synonym words to represent concept. Besides synset data, Punjabi WordNet also maintains lexical and semantic relations.

I am also working to solve the problem of disambiguation by using machine learning and Punjabi WordNet with my PhD research scholar. Our work on WordNet got published in 1 reputed journal, 4 international conferences and a book Chapter.

Generation of Sign Language from Text

My association with blind and deaf school of Patiala for processing of Braille books motivated me to provide technological solutions to problems of hearing impaired people. For this, we have developed a prototype for automatic generation of Sign Language from text. This research work takes the momentum, when we got the funding for three years from SEED division of Department of Science and Technology, Govt. of India for our research project titled "Automatic Generation of Sign Language from Hindi Text for Communication and Education of Hearing Impaired People".

The main objective of this project is to develop Indian Sign Language generation system from natural language input Hindi text. The major objectives of this project are as follows:

- To build online multilingual multimedia Indian Sign Language dictionary.
- To develop a parser to parse input language Hindi text for its ISL processing.
- To develop HamNoSys generation system to create HamNoSys notation for ISL to express sign language phonological features.
- To generate Indian Sign Language with avatar to animate ISL corresponding to input text using HamNoSys notation.
- To develop an online web based and mobile based system where a user can input any simple sentence in Hindi language to get its corresponding Indian Sign Language animation through a virtual human character.

Our work on Sign Language got published in 3 reputed international conferences.

Pedagogy with Mini-MOOCs to enhance quality in Higher Education

My work with FutureLearn under Royal Academy of Engineering (UK) funded project titled as "Innovative Research in Pedagogy with Mini-MOOCs blended with instruction strategies to enhance quality in Higher Education" provides an opportunity to develop Mini-MOOC for SQL course. This course will run in mid-term of 2017 in allied 11 institutes of India. The learning data generated through this course will be used to perform learning analytics to develop a platform for adaptive learning.

EVENT SCHEDULE

06th Oct 2018

8.00-9.00	Registration
Session 1 9.00-11.00	Everything you need to know about MOOCs
Session 2 11.30-1.30	MOOCs development life cycle Opportunities to teachers in the age of information technology
Session 3 2.15-4.00	How to develop your own video lectures with Adobe Presenter and other relevant software.

07th Oct 2018

Session 1 9.00-11.00	Hands on Session on Adobe presenter and other relevant software for effective day to day teaching practice.
Session 2 11.30-1.30	How to launch your own course on portal like udemy and launching your own to share contents with larger audience.
Session 3 2.15-4.00	Demonstration of video lectures prepared by participants.

CHIEF PATRONS

Sri Ch.Malla Reddy, Chairman, CMRGI
Sri Ch.Narasimha Reddy, Vice-Chairman, CMRGI
Sri.Ch. Gopal Reddy, Secretary & Correspondent, CMRGI

PATRONS

Sri.Ch. Bhoopal Reddy, Member, CMRGI
Sri.Ch. Srisailam Reddy, Member, CMRGI

CONVENERS

Major Dr. V A Narayana, Principal, CMRCET
Dr K Vijaya Kumar, HOD CSE, CMRCET

COORDINATOR

Mr K Venkateswara Rao, Assoc.Professor, CMRCET
Mr S. Siva Skandha, Assoc. Professor, CMRCET

REPORT WRITE UP OF THE PROGRAM

Report of Twodays' Workshop on MOOC Development

As part of a wakeup call to all faculties of CMR College of Engineering and Technology "Two Days Workshop on MOOCS Development" is conducted on 6th October to 7th October, 2018.

A Massive Open Online Course (MOOC) is a webbased platform which provides unlimited number of students worldwide with a chance of distance education with the best institutes in the world. Many MOOCs have communities that have interactive sessions and forums between the student, professors and Teaching Assistants (TAs) along with the study/course material and video lectures. So, if there is a particular course you want to pursue but cannot, you have an option of considering a MOOC for your chosen higher education path. This platform is enables to access any courses anywhere remotely as long an internet connection to the system. This workshop also focused on MOOCS development life cycle, development of an individual own video lectures with adobe presenter and other relevant software's in order to inculcate ICT or LMS approach.

Major objectives:

MOOCs (Massive Open Online Courses) to be

1. Online courses designed for large numbers of participants
2. Can be accessed by anyone anywhere as long as they have an internet connection
3. Open to everyone without entry qualifications,
4. Offer a full/complete course experience online for free

The resource person of the a seminar was the professor Dr. Parteek Batia. The Seminar was presided over by the principal of the college Dr. V.A. Narayana expressed the importance of the workshop towards MOOCS development for videos making softwares such as adobe presenter. The workshop create awareness on different software's used to develop the MOOCS based videos for respective courses. The workshop target audience are the senior faculty members from all the branches.

. The feedback obtained from the facutlies revealed that:

1. The program was enlightened about significance of MOOCS.
2. Resource person have given well exposure on Moocs development life cycle

Outcomes:

Participants understand the applications of MOOCS development process.
