Report on Community Visit:

The rural visit, which was organized by our NSS unit provided an opportunity to the students to gain practical skills and be exposed to the rural areas. The students of CMRCET required to go for a study on the impacts of various factors in an unorganized retail sector in the village. Our NSS volunteers and students visited Puduru, Rajbollaram villages; the objective of the study was to know about the problems faced by them and help them in possible way with technology support. The rural camp was held on 15-07-2016. The students were divided into several groups and asked to visit schools, hospital, Gram Panchayat Office etc. This camp went on well and became a grand success.

Community Visit program actively connects grassroots community building efforts in towns across Vermont with state-wide resources, expertise and opportunities. Each Visit brings together a broad mix of community members with a visiting resource team, made up of Council members and statewide providers (state, federal, non-profit, and philanthropic), to create intensive partnerships and tailored work plans for long-term local success. The Visit process is designed for community members to prioritize and choose strategic goals and vision for their community and for the state-wide visiting resource team to provide advice and expertise to help them get there. The program takes place over four months with a series of public meetings, facilitated discussions and community events. To be successful, a broad spectrum of community members must be involved; invitations sent through schools, businesses, and through town offices to residents are very important.

Community visit with staff and NSS volunteers

Kandlakoya (V), Medchal Road, Hyderabad -501401.

The Visit begins with a series of focus groups and a community wide discussion where residents champion their ideas for the future of their town. A local chairperson will help to keep the community informed and involved as the program progresses. It is important that the community decides together what their priorities are through discussion and dialogue, which VCRD will help facilitate. Then the visiting resource team brings their best knowledge and most appropriate resources to advise help and construct work plans for local volunteers along with NSS volunteers and NSS program officer.

Brief Report on Career Guidance and Goal Setting:

The CMR College of Engineering & Technology has organized guest lecture for career guidance and goal setting with Dr. B. Srinivasa Varma, professor, department of Mechanical Engineering spoke about career advancement and goal setting. Choosing your career is one of the most important decisions you will ever make, one with far-reaching implications for your happiness, health, and financial status. It can be easier to do when you set career goals and put a plan in place to grow your care. Many people aren't sure how to take charge of this process, letting chance factors such as a convenient job offer from a friend determine the focus of their career. As a result, the majority of workers are less satisfied with their employment. Surveys indicate that two-thirds of all employees are unhappy with their jobs.

The process for setting career goals in a thoughtful manner can be broken down into the following steps.

- Start With Self-Assessment.
- Brainstorm **Career** Options.
- Research Your Top **Career** Choices.
- Try Job Shadowing to Get an Insider Perspective.
- Consider an Internship or Volunteering.
- Start the Decision **Making** Process.

Outcome of the event is benefited 96 NSS volunteers and 250 students from second and Third years.

Report on Swachh Bharat Program:

The CMR College of Engineering & Technology was organized swachh bharat program in our campus under NSS unit with 86 NSS volunteers and 136 students and 26 faculty members. Sri Ch. Gopal Reddy Secretary and correspondent, Dr. M. Ramalinga Reddy principal, NSS officer spoke about the importance of swachh bharat. Swachh Bharat Abhiyan (SBA) or Swachh Bharat Mission (SBM) is a Nation-wide campaign in India for the period 2014 to 2019 that aims to clean up the streets, roads and infrastructure of Indian cities, towns, urban and rural areas. Swachh bharat means 'neat and tidy'. The objectives of Swachh Bharat include eliminating open defecation through the construction of household-owned and community-owned toilets and establishing an accountable mechanism of monitoring toilet use and run by the Government of India, 2nd October 2019, the 150th birth anniversary of Mahatma Gandhi, by constructing 100 million toilets The campaign was officially launched on 2 October 2014 at Rajghat, New Delhi by Prime Minister Narendra Modi. As a individual's responsibility. The NSS unit of CMRCET had a visit to the Secundrabad railway station with the group of 100 volunteers took part in this event and created awareness among the passengers about the cleanliness.

Brief Report on Haritha Haram Program:

CMR College of Engineering & Technology organized 'Haritha Haram' program on 22nd September 2016 in and around the campus to spread awareness among the student and teacher community and to make slight difference in the increasing temperatures that are contributing towards global warming. Trees also contribute to the environment by helping us in providing oxygen, conserving water, preserving soil erosion and protecting wildlife. They also take in carbon-di-oxide and give us oxygen to breathe. They even provide us with variety of fruits and flowers.

Sapling plantation by Ch. Malla Reddy, MP, Malkajgiri, and NSS volunteers

Thirty four faculty members and fifty-seven students participated in the event and 126 saplings were planted on this day from morning till evening. Mr. Ch Malla Reddy, chairman, CMRCET who was elected as Member of Parliament (MP) from Malkajgiri constituency visited the college on the occasion and planted the first sapling. He exhibited lot of enthusiasm in rendering his services towards greenery and encouraged the students with a tagline 'Each one plant one and save one'. Also present on the occasion were the Secretary and Correspondent of CMRCET, Mr. Gopal Reddy, Principal of CMRCET Dr. M. Ramalinga Reddy, NSS program officers and other senior faculty members . The event was a huge success as most of the students were seen outside their classrooms involving in making the campus green. All this was done to make a change even if it was a drop in the ocean.

Brief Report on Blood Donation Camp:

Public awareness is noticed to donate blood. Many clubs, colleges, societies, offices, etc. organize blood donation camps on different occasions. It is a healthy gesture. We must keep this aptitude up at any cost. Most of the blood banks are running short of required blood. By organizing such blood donation camps we may help them to enrich their capacity. The NSS unit of CMRCET conducted a blood donation camp on 09th December 2016 in association with “BBR Hospital” blood bank Hyderabad. We have donated 379 units of blood to BBR hospital foundation. There was a good response from the faculty and students as well. 96 teaching & non-teaching faculty members and 421 students took part in the event. Sri Ch. Gopal Reddy, secretary and correspondent, CMRCET, who was very keen about inculcating the feeling of humanity and kindness in the hearts of the present youth started this event and made it a successful one. This program was organized by our NSS unit under NSS program officer.

Brief Report on Digital Transactions:

The CMR College of Engineering & Technology organized a awareness program on digital transactions with 78 NSS volunteers and 237 students and 142 faculty members. Demonetization is a one of the key factor to stop illegal activities in India and it was an act of cancelling the legal tender status of a currency unit in circulation. Anticipating positive changes on the liquidity structure as whole, nations often adopt demonetization policy as a measure to counter balance the current economic condition. During this period most of the rural people suffered with currency issues because they don't know how to withdrawal the money through ATM and make transaction through mobile. Huge numbers of students participated in the event and created awareness among the public in two villages and around ten villages are covered in Medchal Mandal. The Prime minister of India Mr. Narendra Modi claim that the action would restrict the gloom financial system and reduce the use of illegal and counterfeit cash to fund illegal activity and terrorism.

Report on Awareness on Adult Education:

CMR College of Engineering & Technology has organized a program on Adult education at Puduru village on 21-01-2017 with 16 NSS volunteers along with program officer. Awareness plays a vital role in education system, Education enables awareness and positive thinking. Education enhances character and mind, Soft skills and intelligence which is acquired through education enables every person to lead a successful life. We identified people who are in need of adult education class when we look for mentors or volunteers. And it is important to notice that the mentor learn too. The role of mentors is to encourage people to have better understanding in adult education through the community project we find out what kind of guidance was needed and to develop material that can be used to train mentors for adults that have difficulties, Program officer said that the mentors are role models who take care of people from poor backgrounds with multiple deprivations. They help learners progress and obtain the qualifications society needs them to have, by providing robust guidance frameworks.

Brief Report on Awareness on Dowry:

The CMR college of Engineering & Technology conducted awareness on dowry prohibition. 35 NSS volunteers and 16 faculty members visited Rajbollaram village for creating awareness on dowry prohibition and the acts prevailing in the constitution. Dowry is a social evil in the society that has caused unimaginable tortures and crimes towards women. The evil has taken lives of women from all strata's of society - be it poor, middle class or the rich. However it is the poor who succumb and fall prey to it, more due to lack of awareness and education. It is because of the dowry system, that daughters are not valued as much as the sons. In the society, many times it has been seen that they are seen as a liability and are often subjected to subjugation and are given second hand treatment may it be in education or other amenities. Today the government has come up with many laws and reforms, not only to eradicate the dowry system, but also to uplift the status of the girl child by bringing in many schemes. It is now for the society at large to become aware and understand the situation. It up to all of us to take active steps in bringing about the necessary change and stop either giving or taking dowry. We must all know that we should start valuing our daughters first, so that others know their value once they grow up.
