Standard Operating Procedure

1. **Purpose:** We, at CMRCET, recognize the fact that the adolescent students, irrespective of their gender, go through emotional turmoil and may be confused at this stage of their lives. As a result they may not be in a position to deal with them. In order to make sure that they emerge successfully from this transitional phase, we, at CMRCET, constituted, as per UGC and AICTE guidelines, a student counseling cell which would come to their rescue in case of any issues in the year 2010. The counseling cell addresses all aspects of an individual so that they are culturally and mentally at home during their stay at the college. We help the students to identify to take control of their emotions so that they gain the necessary psychological stability needed to work in a culturally dynamic world. The college takes the help of professionals like psychologists and psychiatrists in certain cases.
2. **Vision**
To provide psychological and emotional support to students so that they become psychologically healthy and emotionally stable individuals
3. **Mission**
 - To counsel students in various aspects of psychological and emotional well being.

- To help all the stakeholders i.e. the students, the parents, the teachers and the management to deal effectively with various issues related to their interpersonal and intrapersonal relationships.

14.Role of Women in Nation Building

Date: 27.01.2015

Nation building, as we can understand from the postcolonial experiences of Asian and African countries, is a difficult process as it has to deal with repercussions of coming into existence of nation. Women have played a huge role in this process in the form of providing leadership. During Indian Freedom Struggle women leaders like ArunaAsaf Ali, Lakshmi Sehgal, SuchetraKriplani, Usha Mehta and numerous others played an active part in their fight against the British rule. During the time of freedom women leaders actively pursued the cause of women even as they are fighting the foreign rule. The struggle for equal representation of women in legislatures and other public institutions continued in the post independence era. They succeeded partially in achieving representation for women in local legislative institutions like Panchayat Raj. But India and many other developing nations have long way to go in giving equal representation and opportunities for women in public life. They are still under represented in law making institutions like parliament. Their participation in economically productive work is abysmally low. As a consequence their voices are not heard and women forgo their right to participate in nation building. In order to discuss the issues concern women and their role nation building CMR CET organized a one day seminar on "Role of Women in Nation Building." Prof. S. Fatima Mary from the English Department conducted the one day Seminar. And this Programme was organized by the **Student Counseling Centre** in collaboration with **Women Empowerment Committee** withan aim to make girls and women aware of their strengths to fight for their basic rights.

14. Role of Women in Nation Building

Date: 27.01.2015

Nation building, as we can understand from the postcolonial experiences of Asian and African countries, is a difficult process as it has to deal with repercussions of coming into existence of nation. Women have played a huge role in this process in the form of providing leadership. During Indian Freedom Struggle women leaders like ArunaAsaf Ali, Lakshmi Sehgal, SuchetraKriplani, Usha Mehta and numerous others played an active part in their fight against the British rule. During the time of freedom women leaders actively pursued the cause of women even as they are fighting the foreign rule. The struggle for equal representation of women in legislatures and other public institutions continued in the post independence era. They succeeded partially in achieving representation for women in local legislative institutions like Panchayat Raj. But India and many other developing nations have long way to go in giving equal representation and opportunities for women in public life. They are still under represented in law making institutions like parliament. Their participation in economically productive work is abysmally low. As a consequence their voices are not heard and women forgo their right to participate in nation building. In order to discuss the issues concern women and their role nation building CMR CET organized a one day seminar on "Role of Women in Nation Building." Prof. S. Fatima Mary from the English Department conducted the one day Seminar. And this Programme was organized by the **Student Counseling Centre** in collaboration with **Women Empowerment Committee** withan aim to make girls and women aware of their strengths to fight for their basic rights.
