## **12. Love and Acid do not mix: An interactive session on Acid attacks**

Date: 17.09.2017

Group Discussions on the topic Acid Attacks

4/10/19

## Acid Attacks

Acid attacks often occur as revenge against a woman who rejects a proposal of marriage or a sexual advance. Gender inequality and women's position in the society in relation to men, plays a significant role in these types of attacks.

Acid throwing, also called an acid, a vitriol attack or vitriolage, is a form of violent assault defined as "the act of throwing acid or a similarly corrosive substance onto the body of another" with the intention to disfigure, maim, torture or kill. Perpetrators of these attacks throw corrosive liquids at their attack throw victims, usually at their faces, burning them and damaging skin tissue, often exposing and sometimes dissolving the bones.

The most common types of acid used in these attacks are sulfuric and nitric acid. Hydrochloric acid is sometimes used, but is much less damaging.

The **Student Counseling Centre** and the **Women Protection Cell** of the CMRCET conducted the above event with an aim to enlighten the students about how and why the male aggression makes the female a victim.

## 15. Gender Discriminations: The Case LGBT Communities

Date: 29.10.2017

Discrimination of people on the basis of caste, race, and gender has refused to go away despite constitutional and other legal frameworks. Our public discourse in the form of media and education does not debate upon these crucial aspects which define one's humanity. Most precious space of public discourse is dominated by hyper-nationalism and war. As a result the voices of victims of sexual and other forms of gender discrimination are not heard as they are pushed to the margins. The sexual minorities such as lesbian, gay, bisexual, and transgender experience discrimination on a daily basis. But not much is known about their plight to people who are conventionally educated in schools and colleges. We must spread awareness about their plight not only in order to educate people about the sexual minorities but also to work towards enlightening people about the harmful consequences of discrimination in all its forms. It is because people who are discriminated can be physically assaulted and their right to life can be taken away as in the case of people from LGBT communities. In order to spread awareness among students of CMRCET about the need to treat people with respect and dignity irrespective of their sexual orientation, we are holding a one day meet on **GENDER DISCRIMINATION: THE CASE OF LGBT COMMUNITY**. Mr. Suneel Kumar Asst. Prof. from the English Department Conducted the session. The above Programme was organized by the **Student Counseling Centre** and the **Women Empowerment Committee**. The **aim** of this event is to make the audience aware of how we need to spread awareness about the plight about the LGBT not only in order to educate people about the sexual minorities but also to work towards enlightening people about the harmful consequences of discrimination in all its forms.

## 16. Cyber Crime Awareness for secure life

Date: 02.11.2017

Spreading awareness about crime is as important as investigating crime. Educating citizens, especially women, about crime perhaps would go a long way in protecting them from crime. The act of spreading awareness is more important as the nature of crime has changed due to information technology which has become part of everyday life. Information technology in the form of smart phones and social media and networks pose special risk to women and children as it makes it relatively easy for the men to target them. The crime takes the form of stalking and harassing women and children either by direct means or by posting their details in dark web or such harmful places in cyber world. It becomes very difficult to deal with the repercussions of such activities as it harms one's self image and reputation among the public. **CSE Department and the Student Counseling Cell** of CMRCET conducted an event on Cyber crime awareness to educate students about the precautions they have to take when they share their details such as phone number and other personal information with anyone. It is because many times the culprit turned out to be a person who is well known to the victim. A senior faculty of the CSE Department Dr. KLS Sowjanya conducted the event. Thus by sharing examples and experiences of victims of cyber crime our **aim** is to educate and protect our women and children better.

## CYBER CRIME

Shanthi

Cybercrime is a crime that involves a computer and a network. The computer may have been used in the commission of a crime, or it may be the target. Cybercrimes can be defined as "offences that are committed against individuals or groups of individuals with a criminal motive to intentionally harm the reputation of the victim directly or indirectly, using modern telecommunication networks such as Internet (networks including chat rooms, emails, notice boards and groups) and mobile phones."

There are six major types of cyber crime that are Hacking, cyberstalking, online identity theft, online child abuse, Ransomware attack, and Net fraud (or) online scams. There are many ways to protect yourself from the cybercrimes like

- (i) Use a full-service internet security suite
- (ii) Use strong passwords.
- (iii) Keep your software updated
- (iv) Manage your social media settings.
- (v) Take measures to help protect yourself against identity theft and etc...

"BETTER BE SAFE THEN SORRY!"

### Definition of Cyber Crime

Cybercrime is a crime that involves a computer and network. Cybercrimes can be defined as: "Offences that are committed against individuals or groups of individuals with a criminal motive to intentionally harm the reputation of the victim. Directly or indirectly using modern telecommunication networks such as Internet.

Cyber crimes crossing international borders and involving the actions of at least one nation-state is sometimes referred to as Cyberwarfare.

### Classifications of Cyber Crime

- \* Financial Fraud Crimes
- \* Cyberterrorism
- \* Cyberstalking
- \* Cyberwarfare
- \* Drug trafficking

A primary impact from cybercrime is financial, and cybercrime can include many different types of profit-driven criminal activity.

## 24. Nirbhaya Laws: A Caution for both Genders

**Date: 21.02.2018**

Violence against women in general and sexual violence against them in particular in India is old as the history of myth that is woven into the fabric of the nation. It had appeared as if these crimes against women are a normative aspect of general nature of crime. But Nirbhaya incident (2012) in Delhi forced the government of India to take a serious view of crimes against women. It attracted international attention due to massive protests across the country against such barbaric and heinous acts against women. The government of India appointed Justice J.S.Verma to suggest amendments to criminal law to deal with the new waves of crime against women. Thus the Criminal Law (Amendment) Act, 2013 (Nirbhaya Act) came into force. This is followed by many other changes in the criminal justice system. Fast track courts to deal with the criminal acts against women were formed. Harsher punishments to culprits are being given. Marital rape is now being treated as a crime. The government made amendments to the juvenile justice act in view of the involvement of the juveniles in many criminal acts. Such juveniles are now treated as adults keeping in view of the nature of crime. The **aim** in conducting the event is to create awareness among the youth and also to spread the lessons learnt from Nirbhaya incident. So CMRCET held a one day meet on Nirbhaya Laws on 21<sup>st</sup> February 2018. The session was conducted by Ms. Rosy Matilda Asst. Prof. of the English Department. It was jointly organized by the **Women Protection Cell** and the **Student Counseling Cell**.

## **25. Women in the Competitive World: Talk by Alumni**

**Date: 28.02.2018**

Vyshnavi a former student of EEE branch of CMRCET gave a motivational talk to the girl students in the college on 'The Challenges girls face in preparing for Competitive exams in the Indian Society'. She is an IAS aspirant.

She spoke about how easy it seemed to clear the Prelims and Mains of the Civil Service exams and how tough the Interview was. At just 21 years of age, when she was asked 'if her husband died and when she was getting ready to marry another man, and her dead husband returned what would she do.' Such questions confused her. The end result was that she did not clear the interview. She explained that though she was heartbroken, with the help of her parents and her favorite childhood teacher she overcame her disappointment and started preparing again. She lamented how the society around tried to interfere in her matters, trying to influence her parents to get her married off. She faced obstacles at every step of her preparation after two years. But she still slogged through. She cautioned the girls on how they can become influenced by negativity of the society. She exhorted them to take the support of their loved ones and follow their dreams till they are realized. The event was organized by the **Student Counseling Centre** and the **Women Empowerment committee**.

The **aim** of the event was to make the girl students aware of the tough competition that they would have to face in the outside world.

## 26. Women's Day Celebration: Living for a Purpose

Date: 08.03.2018

"I think women are foolish to pretend they are equal to men. They are far superior and always have been," – William Golding, Novelist, Playwright and Poet.

The celebration, at CMR College of Engineering & Technology of Women's Day began with addresses by the Secretary & Correspondent Mr. Gopal Reddy and the Principal Major Dr. V.A. Narayana, lauding women for their talent in multi tasking and making the world a beautiful place with their presence.

The Guests were Dr. Madhavi Sastry, a scientist working with D.E. Shaw India Software Ltd., Dr.K. Aruna, nutritionist and dietetics, and Lakshmi Praveena, Kuchipudi dancer and Choreographer. All the guests spoke about the struggles they had in finding a place for themselves in a male dominated world and also gave credit to the men in their lives for making their lives easier to live.

The Head of Women's Protection Cell of the college also spoke about the safety and security maintained in the college for the girl students and female faculty and informed the gathering about how cases pertaining to harassment are dealt with in the college.

The day concluded with cultural programmes by the students, which also included a short performance by Lakshmi Praveena, the dance she helped choreograph from the Telugu film Bahubali 2, "Kanna Nidurinchara.'

The entire Programme was organized by the **Student Counseling Centre** and the **Women Empowerment Committee**.

The **aim** of the event was to show how women can multi-task and be achievers.
