## PROGRAMREPORT

The position of schedule caste and schedule tribe is always a question mark for the society being a developing country we are saying that we are giving equal statue to them as compared with other caste but in reality its not be like this. In modern time also they are facing problem but we can say that the extent of sufferingness is less as compared to previous time. For improving their conditions government are taking various steps like specific laws are being made for them, commissions were made only for their betterment and by means of reservation also, government is trying to improve their condition. Specifically, Our Constitution guarantees justice and equality of opportunity to all its citizens. It also recognizes that equal opportunity implies competition between equals, and not 'un-equals'. Recognizing the inequality in our social structure, the makers of the Constitution argued that weaker sections have to be dealt with on a preferential footing by the state. A special responsibility was, thus, placed upon the state to provide protection to the weaker sections of society. The Constitution provided for protective discrimination under various articles to accelerate the process of building an egalitarian social order. Thus, preferential treatment for the depressed classes (SCs and STs), should not be understood as an act of magnanimity on the part of the political elite at the national level but rather a strategy to give them a share in power in politics and administration and to uplift them socially and economically . In my research paper I just explained the condition of schedule caste and schedule tribe and what are provisions available to them under the constitution of India. These provisions are just like a helping hand for them to improve their condition. When all the sections of people developed then only our country will become a developed country. The introductory remarks were made by the IQAC Coordinator of the college, Devadas and all the HODs and faculty members were participated of this seminar. Dr. P. Ravi Kumar highlighted on the change in the mindset to face competition and enhance leadership skills.

The program aims to create awareness on different situations of the institution, which a student might or may undergo in their walk of life, raised on day to day life in the question hour students ask the speakers queries.

The feedback obtained from the students revealed that:

1. The program was given equality of opportunity to all its citizens.
2. To develop leadership skills in the students.

### Outcomes:

Participants understand the use of skills in their carrier and professional life.
