1. Role of women in Nation building

Nation building, as we can understand from the postcolonial experiences of Asian and African countries, is a difficult process as it has to deal with repercussions of coming into existence of nation. Women have played a huge role in this process in the form of providing leadership. During Indian Freedom Struggle women leaders like ArunaAsaf Ali, Lakshmi Sehgal, SuchetraKriplani, Usha Mehta and numerous others played an active part in their fight against the British rule. During the time of freedom women leaders actively pursued the cause of women even as they are fighting the foreign rule. The struggle for equal representation of women in legislatures and other public institutions continued in the post independence era.

They succeeded partially in achieving representation for women in local legislative institutions like Panchayat Raj. But India and many other developing nations have long way to go in giving equal representation and opportunities for women in public life. They are still under represented in law making institutions like parliament. Their participation in economically productive work is abysmally low. As a consequence their voices are not heard and women forgo their right to participate in nation building. In order to discuss the issues concern women and their role nation building CMRCET organized a one day seminar on "Role of Women in Nation Building." Prof. S. Fatima Mary from the English Department conducted the one day Seminar. And this Program was organized by the **Student Counseling Centre** in collaboration with **Women Empowerment Committee** with an **aim** to make girls and women aware of their strengths to fight for their basic rights.

Workshop on Entrepreneurship Skills by Dr. P.V Ramarayalu

13.11.2021

Women's achievements as business women and successful entrepreneurs both in India and around the world offer a glimmer of hope in a world which seems to be overwhelmingly male dominated. In our own country we have various organizations like Confederation of Women Entrepreneurs, Association of Lady Entrepreneurs, and Federation of Women Entrepreneurs.

Their success as independent businesswomen, as Chief Executive Officers and as owners has to be celebrated by all who strive for an equal world. However, one has to remember that women's participation in work and industry is as old as the history of work itself. In order to spread the importance of entrepreneurship skills among women, especially in the age of start ups, CMRCET has organized an awareness camp for the girl students and women faculty of the college on 24th October 2016. The college invited Dr. P.V Ramarayalu an entrepreneur to share his experiences and challenges he faced in the course of his journey as an entrepreneur.

According to him women could not organize themselves due to fewer opportunities for participation in civic and political life. But in recent decades there is a drastic change due to increased opportunities in higher education and government of India's active involvement in encouraging women's participation in various sectors of economy. As a result today we have women business leaders in areas like banking and finance (Arundhati Bhattacharya), media (Ekta Kapoor), Indra Nooyi (Pepsi), Health and Medicine (Kiran Mazumdar Shaw), Information Technology (Aruna Jayanti Capgemini). He asked the girl students to become aware of their potential and utilize the opportunities provided by the government of India in the form of various schemes. The workshop was jointly organized and conducted by the **MBA department and Women Empowerment CELL.**

Report :Women in the Competitive World: Talk by Alumni

Date: 04.12.2021

Vyshnavi a former student of EEE branch of CMRCET gave a motivational talk to the girl students in the college on 'The Challenges girls face in preparing for Competitive exams in the Indian Society'. She is an IAS aspirant.

She spoke about how easy it seemed to clear the Prelims and Mains of the Civil Service exams and how tough the Interview was. At just 21 years of age, when she was asked 'if her husband died and when she was getting ready to marry another man, and her dead husband returned what would she do.' Such questions confused her. The end result was that she did not clear the interview.

Ms. Vyshnavi a former student and IAS aspirant speaking to the girl students

She explained that though she was heartbroken, with the help of her parents and her favorite childhood teacher she overcame her disappointment and started preparing again. She lamented how the society around tried to interfere in her matters, trying to influence her parents to get her married off. She faced obstacles at every step of her preparation after two years. But she still slogged through. She

cautioned the girls on how they can become influenced by negativity of the society. She exhorted them to take the support of their loved ones and follow their dreams till they are realized. The event was organized by the **Student Counseling Centre** and the **Women Empowerment cell**. The **aim** of the event was to make the girl students aware of the tough competition that they would have to face in the outside world.

REPORT ON CHALLENGES FOR WOMEN IN THE SOCIETY

Every society has its own challenges for women irrespective of its stage of economic development. But the cultural and social foundations of a society will have profound impact on the lives of its women. In a liberal and progressive society which has evolved over the years, for instance New Zealand which ranks among the top countries in gender equality, women have equal opportunities along with men and are secure from violence to a great extent. But the same cannot be said about developing societies with issues of inequality and violence. Thus women in India face some unique challenges because of its cultural and social structure which is predominantly patriarchal. As a consequence they are vulnerable to violence and prejudice. CMRCET conducted a workshop for the girl students and lady faculty of the college to create awareness among them. It invited very senior faculty **Prof S Fatima Mary** of the college to speak on the given topic to sensitize the students about the challenges that a society can pose for students.

Women's Day Celebration :Gender equality today for a sustainable tomorrow

In CMR College of Engineering & Technology ,we celebrated **International Women's Day** with a lot of fervor and talent display. The Chief Guest for the Day was Mrs kalpana reddy chairman CMRGI ,Dr.Madhavi latha , who is principal of mallareddy womens college. Speaking to the audience who comprised of Women faculty and girl students, she said that Life is all about making choices and feeling responsible. And in the Indian patriarchal society, a woman getting a chance to make a choice is very rare. And if she does get it, it is all the more difficult because she needs to stand by her decisions of pursuing a career and maintaining a family in a male dominated world.

This event was organized by the **Student Counseling Centre** and the **Women Empowerment CELL** with an **aim** to make the women aware that Life is all about making choices and feeling responsible.
