Report on personality Development

EQUAL OPPORTUNITIES CENTRE (EOC) had organized Seminar on “Personality Development” on 15th December, 2023 for the B. tech students at seminar hall, Dept of civil, CMRCET. The objective of this seminar was to develop the students spiritually and build self-confidence, enhance self-esteem and improve overall personality. The programme aimed at grooming the students through sensitizing them about proper behavior, socially and professionally in both formal and informal circumstances. Prof. Gopal Naik was the resource persons on this special event.

Addressing the gathering Prof. Naik spoke on life skills. Life skills are abilities for adaptive and positive behavior that enables humans to deal effectively with the demands and challenges of life. He spoke about SWOT (strengths, weakness, opportunities and threats also called as challenges in today’s life) analysis and ask the students to do SWOT analysis of themselves. Through this analysis one can realize about their inner qualities i.e. strengths and weaknesses. Everyone has different qualities and has own uniqueness. So there is a need of push up to bring a good change.

Major. Dr. V. A. Narayana Principal said, “Time management is setting priorities and taking charge of the situation and time utilization”. He advised the students to spend every second in an efficient and productive way. He highlighted the major source of time management problems and solutions to them. IQAC Coordinator of the college Prof. Devadas added that a ‘smile’ can lead a person towards success. It was a great day of learning and exposure about personality development which would help the social work students to bring change within themselves and among people.

Outcomes:

Participants understand the use of skills in their carrier and professional life.

Report on Awareness program on Entrepreneurship and incentives provided by state government

The objective of the Equal opportunity Cell is to help and empower the students. In this connection Equal Opportunity cell made an attempt create awareness about the financial assistance for the students in their career. On 23rd February, 2023 Equal opportunity cell of CMRCET organized an awareness program on Entrepreneurship and incentives provided by state government.

Departmental schemes was required to look after only the welfare of SC/ST population of our State but with the reorganization of OBC as a separate group of population, welfare activities relating to OBC, which forms quite big chunk of the population, was also assigned to this department. Welfare activities relating to Minorities was also assigned to this department but in 2023-24 it (activities relating to minorities) was transferred to Revenue Department.

A student is allowed to avail the scholarship either under the State Scheme or Centrally Sponsored Scholarship Scheme, whichever is beneficial to him/her but can apply only under one scheme. The Department for the Welfare of S/ST/OBC/Minorities is implementing this scheme through DSFDC.

Dr D. Raman professor of CBIT, Hyderabad spoken on this occasion about the proper utilization of central and state schemes to explain for the benefits of the students.

Major Dr V A Narayana principal of CMRCET spoken on this occasion with the students how the scholarship given by the Govt benefits to melt their financial requirement using the Govt schemes.

In the absence of financial resources many students from backward and economically weaker sections of the society are not in a position to pursue higher education. In order to support students from these deprived communities, government and other agencies make scholarships available to the needy students. Thus such programs have to be conducted on a regular basis

Report on Road Safety Awareness

A Lecture on “Road Safety for Divyangs” held at CMRCET, Hyderabad on March 26, 2024 by P Shankar Goud, Sub-Inspector of Police who gave informative lecture to the students.

He informed the students that owing to the violation of traffic rules on roads by the underaged driving roads has become very unsafe, especially persons.

The students enthusiastically participated in interactive session with P Shankar Goud, SI and were inspired with his words, participants recognized about how critical road safety is. The participants took responsibility of ensuring that their family members follow the rules for road safety, as breaking the rules might be dangerous or fatal. The resource person Mr. Vishnu explained the risks of wheeling on the roads. He requested underage students not to drive vehicles on the road and to be civic conscious citizens.

Principal Major. Dr. V. A. Narayana and P Shankar Goud SI flagged off the safety walk at college campus area and spread awareness by holding placards with messages of safety on the roads while driving and walking, shouted slogans. The policemen who were on traffic duty, assisted in the smooth movement of traffic and safety of the students. In the seminar, all the students explained about importance of wearing helmets to the participants.

Outcomes

1. It recognizes that prevention efforts notwithstanding, road users will remain fallible and crashes will occur.
2. It stresses that those involved in the design of the road transport system need to accept and share responsibility for the safety of the system, and those that use the system need to accept responsibility for complying with the rules and constraints of the system.
