| Part Time | 0 | 0 | 0 |

Online Education

1. Does all programs/courses were completed on time.

Yes

2. Measures taken to complete the syllabus of courses and programs.

Covid-19 has forced Educational institutes across India, and the world to suspend physical classrooms and shift to online classes. CMR College of Engineering & Technology also online classes soon after the lockdown was imposed. We utilised many platforms created to enable online education like SWAYAM (online courses for teachers), the National Pr Technology Enhanced Learning (NPTEL for course materials and classes, and running of online modules. Online classes for the B. Tech and MBA were conducted daily during the lockdown period. Final year PRCs, third year mini projects, were all conducted online. Second year micro project training also was conducted online and the projects were soft project for all the branches. Faculty was initiated into the new technology. Soft copies of the subject taught by the teachers and the recordings of the classes and material to the were sent to the students, so they could have access to them when they have the internet connectivity. Videos were made and shown, writing tabs and tools were used for effective teaching, and students were made to interact in the class. All these measures helped the classes to be more conducive for creating a good learning environment. Assignment s were given for all B.Tech and MBA students. Every day 2 questions from each subject were given as assignment where the students wrote and scanned and sent to the concern faculty's mails. This process continued throughout the lockdown period. Most of the students registered for the Coursera courses online. The faculty in the role of the Mentors the students every two days and also to their parents especially to the absentees. And details were maintained. And this lockdown gave us an opportunity to conduct Faculty development programs, especially on English language and communication for the entire faculty of our institute. Our own English department organized these sessions for teaching non-teaching faculty. There were various other training program and FDPs conducted by IITs and NITs and Governmental organizations like TASK that our faculty and students attend during the lockdown period. Faculty development programs on Python and AI were conducted for the faculty during the lockdown period. Every classroom in the campus provided with facilities like uninterrupted power supply and internet, computer systems with webcam and speakers, semi sound proof rooms etc. CMR College of Engineering & Technology is equipped with all that is needed to conduct classes either on online mode or offline mode. If and when the classes begin on offline mode the college is ready with sanitized rooms, where the class sessions would be conducted. We have planned to sanitize the classrooms after every session and at the entry gate, a check for body temperature liquid hand sanitizer is provided. If a student shows any symptoms of sickness, we would send them to the CMR hospital which is just half a kilometer away, for initial checkup a would be taken if there is any serious issue. CMR College of Engineering & Technology has met with all the needs, of the stake holders, and was able to continue with the teaching learning process even in adverse situations.

3. The period of delay in completion of syllabus (in months).

0

4. The period of delay in conducting exams (in months).

4
