## **Literature Club Annual Report:**

LITERATURECLUB ofCMRCET strived hard to develop analytical and creative thinking skills to students. It is more than just a club for reading and writing; it is a club made for people who love literature and want to share their experiences, readings, and thoughts with others who have the same interest and talent.

It created the perfect platform for budding writers. All the students who were part of the club are benefited from the events and efforts for the constant exchange of thoughts, ideas, literary knowledge, and works.

It enabled students to getopportunities to appreciate different types of literature and increase literary skills. The Club not only gave scope for the students to refine their writing skills but also develops logical thinking and curiosity to know more andinstilled confidence for public speaking. The club helped the students to strengthen different aspects mentioned below:

To act as a positive catalyst for upgrading and honing our skills.

- To lit up light of enlightenment in every ones mind.

## Gap Analysis

The Literature club reviewed all the programs conducted for the academic year (2021-22). It appreciated the contribution of the faculty and the students to make the literature club activities successful. The committee went into every detail of the literature club activities initiated for students language skills development. It interacted with the club members and student in-charges. The committee found that the activities paved the way for the student to hone their skills. Earlier many of the students were hesitant to take part in various activities due to various cultural and social factors. Thus there is a gap between what the course aims to achieve in terms of its objectives and the abilities of the learners to make use of the literary club to improve their communication skills. The committee, upon close examination, found that students who come from urban areas are able to communicate better and display no anxiety when asked to participate in different speaking and writing activities undertaken. The committee decided to plan more literary games like debates, essays, quizzes, group discussions and other creative events for the language skills enhancement of the students.
