48.Street Cause CMRCET
A Division of largest student run NGO

Awareness program conducted in ZPHS Girls School at Medchal by CMRCET street cause program under CEER.

INTRODUCTION :

Street Cause is the living embodiment of the quote, “A life without a Cause is a life without an Effect.” The slogan that had been bringing in students of different ambitions and aspirations, together and driving them to be more than passive spectators to the inequities in our society.

The organization is the realization of Akhilesh Jukareddy’s vision of service to humanity, the founder of the present day largest student run NGO in the state, with an active workforce of 2000+ students. It was originally founded in Sreenidhi Institute of Science

and Technology in the year 2009 with Akhilesh as its President and his comrades, Md. Akhil as the Vice-president, Karthik Sutrave as the Treasurer, Mitesh Lohiya as the Executive Board member and Shravya Reddy as the board member

From our humble beginnings, of having only 5 divisions within a year of its genesis to establishment of a stronghold in 45+ academic institutes of varied disciplines all around Hyderabad, we have come a long way. Though we started as a single body that mobilized the youth to take up a number of social welfare projects, it soon branched to Street Cause Gold and Street Cause Eforce; to extend the platform to those outside the student community and to tackle myriad aspects of rising environmental concerns respectively.

In the span of our eight years of service, we have organized numerous fundraisers such as Howzzzat, Parinama, Goal-Addict, Dunk it and the Run For a Cause series, to meet our objective of implementing large scale developmental projects such as renovation of schools, orphanages and old age homes, furnishing them with the requisite infrastructure, provision of water filters and water tanks, construction or renovation of washrooms, repairing faulty electrical circuitry and damaged pipelines, catering to special needs of the differently abled and installation of solar street lights in the remote tribal villages of Telangana, are just the beginning of a long list of services rendered to the society by us.

In recognition of our work and the tremendous efforts made in its implementation, Street Cause received the Award of Excellence for Outstanding Community Services from the honorable Chief Minister of Andhra Pradesh-Sri. Kiran Kumar Reddy in June, 2010 and we are also extremely pleased to inform you that the founder President of the organization represented India at the 7th Annual Youth Assembly conducted at the United Nations in New York in August of the same year.

In our ninth year of service, after a careful assessment of the enormity of issues to be addressed in the society, the limitation of essential resources such as time and money and performance of the organization in the preceding years, we have decided to move from temporary and short-term relief events to permanent impact projects only, to which the members of the organization reciprocated with sheer positive attitude.

OBJECTIVE: To be a large student NGO creating a sustainable impact in 30 cities across PAN India

ALL ABOUT THE UNITS

1. Street Cause PRIDE :

The Pride team looks forward to bringing about more conversations and clearing misconceptions, and to do our bit for the LGBTQ+ community.

2. Street Cause Innovation & Research :

This focuses on sustainable solutions for the problems by researching on par with worldwide concern

3. Street Cause Originate :

Street Cause Originate is the designing studio of Street Cause that focuses on designing, content creation and expressing SC in a creative way

4. Street Cause EForce :

establishing eco clubs in urban and rural schools to instill a 'green sense' of responsibility and accountability, in the young minds, for our indiscretions towards nature.

5. Hyderabad Youth Assembly :

A premier Permanent project of Street Cause that recruits students from colleges of varied academic disciplines after a rigorous scrutiny of group discussions and personal interviews.

6. Street Cause Gold :

Street Cause GOLD was started with the intention to provide a platform to the working class people who wish to give their two cents to the society

7. Street Cause PAW :

Street Cause PAW is started with a scope to make this world a better place for animals.

TASK REPORT

Task Date: 6th August 2022

Division Name : Street Cause CMRCET

Task Number : 01

Task Name : Menstrual health awareness and sanitary pads distribution

Task taken up by :

Suresh Ram (HOD CEER dept CMRCET), Rishikesh Nimker, Harsh Amilpur

Event Summary :

ZPHS All Girls High School which is located in Medchal is a government school. Upon survey, Street Cause CMRCET noticed that the girls there were not properly educated about menstrual health. They lacked knowledge regarding menstrual cycle and the steps that are to be taken during that period. So, SC CMRCET planned to conduct an awareness program for all the girls there of 8th and 9th grades to educate them on this topic.

After the Awareness session, sanitary pads were distributed among the girls to promote proper menstrual hygiene.

Budget split :

Each pack: Rs 32/- (consists of 7 pads)

Hard copies (for demonstration purpose) =213

Banner= 400

Total budget: = Rs.160 x32= 5120/-12% +213/- + 400/-= 5,113 ₹

50. Raksha Bandhan celebration in CMRCET

CMRCET organized Raksha Bandhan, celebration in collaboration with Samskruti Foundation. In this regard, we are on a mission to celebrate Rakhi with our Soldiers. Printed letters will be circulated on the 19th and 20th of July, where you will sign and donate one Rakhi (a very simple one), which will be forwarded to the soldiers. This small gesture is an acknowledgment of the valiant soldiers' deeds.

Come build the Spirit of Nationalism!

Celebrate Raksha Bandhan with our Armed Forces

11th August 2022

Samskruti Foundation with a mission to preserve, protect and encourage practice of Bharateeya Culture and Ethos through research, education, training and dialogue calls for students to unleash the power of Raksha Bandhan as a festival to foster brotherhood and nationalism. Students need to make Rakhis coordinated by faculty members and send them through post to the Soldiers of Indian Army stationed in different cantonments across the country. They can even visit the nearest cantonment area and celebrate Raksha Bandhan with the Soldiers. The entire experiential

learning activity, the making of the Rakhis, the dispersal, the physical visit, the experience of tying the Rakhi, and most importantly the thought processes of love and

patriotism may be documented and sent as reports to Samskruti Foundation. The reports will serve as institutional best practices and facilitate IQAC of the institution.

India's "Unity in Diversity" binds it together. Indian culture gives the country its unique identity and recognition throughout the world, instilling in its people a sense of immense pride and gratitude for the rich cultural legacy.

Festivals are an outlet for outpouring of love, care and respect. Respect for the culture of self and others teaches that the world is one family

{Vasudhaiva

Kutumbakam}.

Make Rakhis

 **Put in the batch of Rakhis in an envelope and on the top of the envelope, write in bold “RAKHI FOR SOLDIERS”**

 *Now, address it to the Indian Army soldiers : C/O 99 APO or C/O 56 APO. 99 APO covers the troops in the east - Sikkim, West Bengal, the 7 northeastern states, and many more. 56 APO covers most of the troops from north to south and the west.*

 **Once you draft the post, the Indian Post will transfer the envelope to the Army Post. The Army Post will then transfer the Rakhis envelope to the soldiers on the border.**

1. Visit tailors in the neighborhood
2. Collect colorful cut cloth waste pieces
3. Size them with scissors into beautiful shapes
4. Stitch them into colorful flowers

5. Use waste liner clothes or liner threads and make beautiful handmade Rakhis for dutiful soldier brothers in the cantonments and borders.

6. Reach out to cantonments and military areas by taking permission with these Rakhis and Sweets.

7. Share your respect and love for them by tying Rakhis, putting Tilak or Tikas on their forehead and sharing sweets

8. Salute them for their devoted duty and love for Maa Bharathi

9. Request them to take a picture and share it with your friends and relatives

Certificates will be issued based on the receipt of Reports by 20th August 2022 by Samskruti Foundation at sfclcnaveen@gmail.com

Event Report:

All achievements in life begin with a Dream. To ‘ live your dreams ‘ one need to start working towards it right away. Our college in association with Ullas trust conducted a one day personality development program for ZP High schools which is taken by CEER department to create the awareness and inspire young minds.

The event titled- “ **Can Do Workshop and Personality Development Program for 12 ZPHS Schools Students**” was jointly organized by Centre for Engineering Education Research(CEER), CMRCET in association with Ullas Trust on 15th Oct 2022 .

The inauguration was done by the CEER HOD,B.Suresh Ram,Dean FSA Dr. Fathima Mary CMRCET and Ullas Trust technical lead Mr. Srikanth and School Students. The event was attended by 12 ZPHS school students of Class IX who excelled in their academics. The 12 schools are from Hasmathpet, Girmapur, Srirangavaram, Muneerabad, Pudur, Rajabollaram, Ravalkole, Nuthankal, Bachupally, Goudavelly, Medchal.

The college management has provided the transportation facility to all the schools to pick and drop from school to the college. One faculty to each school were sent to coordinate and escort them to the college. The event started with lighting of lamp with the eminent dignataries, School teachers and students. The invocation song was sung by the students while lighting the lamp. Later, Dean FSA Dr. Fathima Mary, CEER HOD B.Suresh Ram addressed the gathering and inspired the students with their motivational words. Dr. Fathima Mary was presented as a Role model and she has given her experience of entering in to the teaching field and her Success story. She gave her life experiences and said not to give up and try to find the good in everything. She inspired and made the students enthusiastic with her speech. Ullas trust coordinator has presented the Motivational “CAN DO” Audio Visual to the students. The students were provided with the abundant knowledge on growing competition and how the skills can be developed to grow. Lastly, the topper students of the class from each school were given the reward certificates for their outstanding performance in academics. Some students and teachers of ZPHS shared their experience of attending the workshop.

The CMRCET management facilitated the spoke person of Ullas Trust Mr.Srikanth with a memento and appreciated the work they have carried out. The management of CMRCET also provided the refreshments to all students and teachers of the schools.

62. Induction program in collaboration with Palle srujana and CEER

Department of Centre for Engineering Education and Research(CEER) in collaboration with Palle Srujana awarded Certificates to the 3rd Year students who are in MAGIC Program where the students have helped their peers doing their projects in Presence of chief guest Brigadier Ganesham, president Palle Srujana and Principal sir.

63. Induction program in collaboration with Nirman and CEER

On a mission to promote grassroots social innovations, volunteering spirit, active citizenship and social leadership among the youth of the nation, Nirmaan, a registered NGO based in BITS Pilani started in 2005 was established in CMRCET on 9th nov 2022. Chief Guest Sekhar Kammula addressed students during the induction program. Chief Guest Sekhar kammula sir addressed students with his experiences from his engineering College days. He insisted everyone know and follow their passion despite the career they chose. He explained the importance of friendships and acquaintances in life and strongly insisted to make such relationships in the 4 years they stay here at CMRCET. Character is something that lies in the way you treat others and organizations like Nirmaan help you build it to move into this society. Countries' greatness and patriotism lie in the way they strive for the betterment of the people that live in the country more than the slogans they shout in the streets said Sekhar sir. Views on Gender issues, Caste, and economic values describe one's character and the way one strives to change and equality in society are what make their actual character development. He also mentioned the way one treats the environment and nature defines your character and urges all students develop their character in their college life. He appreciated CMRCET for encouraging and giving scope to students for their students through SIP and other activities.

This event is conducted under Centre for innovation and Entrepreneurship (CIE). This event is organized on 10th November 2022 through Off-line mode.

This Field Visit which is mainly designed to give the exposure about the problems being faced by different communities. The objectives of the Field Visit are to build students' capacity to use problem solving skills to address social issues through innovative solutions and also to transform students' perspective on the world around them by enabling them to identify areas ripe for innovation.

Before visiting Field, students will be divided into set of multi disciplinary groups and they will be taken to nearby village for community interaction. During Field visit in the Student teams will interact with different communities. Student teams will note down set of problems being faced by various communities. This Field visit will build empathy and an ability to communicate effectively both orally and written with widely-varying communities. It improves the communication skills of the student.

After coming back from the field visit, each team will fair the problems noted and every student will assign some weight to each problem. Each team will come with one problem whichever has highest weightage. Each team will brain storm and analyse the problem.

At the end of the Field Visit each team will present the Proposed solution in the form of a poster. Each poster will be evaluated based on various criteria like how best the team understood and analyzed the problem, communication skills, Technical knowledge and physical appearance of the poster.

This One day Workshop on **Exposure and Field Visit For Problem Identification** in Educational Institutions was really an informative to the faculty and students. Event Title: Exhibition of prototypes & Linkage with innovation Ambassador for Mentorship Support-Managed through YUKTI –NIR

Dates: 30th and 31st January 2023

Event Coordinator: Mr. B Suresh Ram, Assoc Prof

Organized by: Mr. K. Sathish, Asst Prof, Mr. B. Balakrishna, Asst Prof

Number of Students attended 160

Number of Faculty attended 17

Event Report:

The Event titled- “Exhibition of prototypes & Linkage with innovation Ambassador for Mentorship Support-Manage through YUKTI –NIR” conducted by Centre for innovation and Entrepreneurship (CIE), CMRCET as part of the IIC driven Activity was held in offline mode. To give a platform to the participants to showcase their prototypes and to get desired support or external visibility with the support of the Institute Innovation Ambassadors. The exhibition was held on 30th and 31st Jan 2023 in the college campus.

The IIC president – Dr. Merugu suresh, IIC convener Dr. B. Premalatha, R&D coordinator, IIC members and Innovation ambassadors attended the program. Other college IIC members were also invited as special guests for the exhibition to provide the required mentorship support to the participating teams. This exhibition helped the Innovation Ambassadors evaluate the progress of the prototypes developed based on innovative ideas.

Around 35 teams presented their prototype working models in the exhibition. The students were mentored on innovation and how the projects and prototypes can be modified to make them as startup. Students and faculty members visited the exhibition and the participating teams presented their prototypes and demonstrated their of their innovative ideas.

This Workshop on Exhibition of prototypes & Linkage with innovation Ambassador for Mentorship Support-Manage through YUKTI –NIR in Start Educational Institutions was really an informative to the faculty and students. In this event, various aspects like professional skills, multi disciplinary skills, Technical skills and project management skills helps students to solve their personal and professional problems to start startups.

73. Donation of Logistics to schools

The Seven ZPHS schools surrounding Medchal has proposed their requirement of Logistics to the Management of CMR College of Engineering & Technology. The CMR College of Engineering & Technology has received the requirement of Logistics from Seven ZPHS Schools surrounding Medchal. The Management kind-heartedly took a decision based on the requirement from schools and came forward to donate the Logistics (i.e. 50 Benches and 21 Computer systems). Out of seven schools five schools has a requirement of benches, and all seven schools has requirement of Computer systems. Based on the requirement, the Management forwarded the responsibility to the CEER department. Mr. B. Suresh Ram, (CEER Head) took the task with kind responsibility and guided the faculty with the duties and completed the task successfully in donating three Computer systems each to all the seven schools and 10 benches each to five schools.

74. "B2B Competition"

An Inter project Competition for II year students on 6th January 2023

B2B Competition (A *Inter Project Competition for II year Students*) at CMR College of Engineering & Technology, Kandlakoya, Medchal on **6th January 2023**. This is a best platform for the students to show case their talent and interact with other students, teachers, faculty of Engineering college and other experts of academics.

This Project competition motivates students and drives them to put forth their best efforts. It sparks interest, passion and ignites a fire within. Participants are encouraged to improve themselves and learn a new technique. Winning is just an added bonus. It keeps students aligned with the purpose and process while practicing good sportsmanship.

Participation Details:

Total 109 projects were registered for the inter project competition from all branches of II year students. Out of which 54 were short listed from the following branches of II year students for participating in the competition.

76. Technosplurge-2023 at MALLAREDDY university

Students of 3rd year CSE won the **National level Hackathon**(Technosplurge-2023 which is a software edition Hackathon) conducted by Malla reddy University during 15th Feb 2023. WON 1st prize, under the guidance of Centre for Engineering Education(CEER)

Student Details:

Akshay Tonde - 20H51A05K0

Nagendra - 20H51A05P1

77. VASAI-2023 at VEL TECH Chennai

Under the guidance of CEER team, Students of 3rd year stood 1st place in Hackathon, and 1st place and 2nd place in project competitions in VelTech at Chennai. It is a very prestigious event sponsored by UNESCO where our students bagged total 3 prizes.

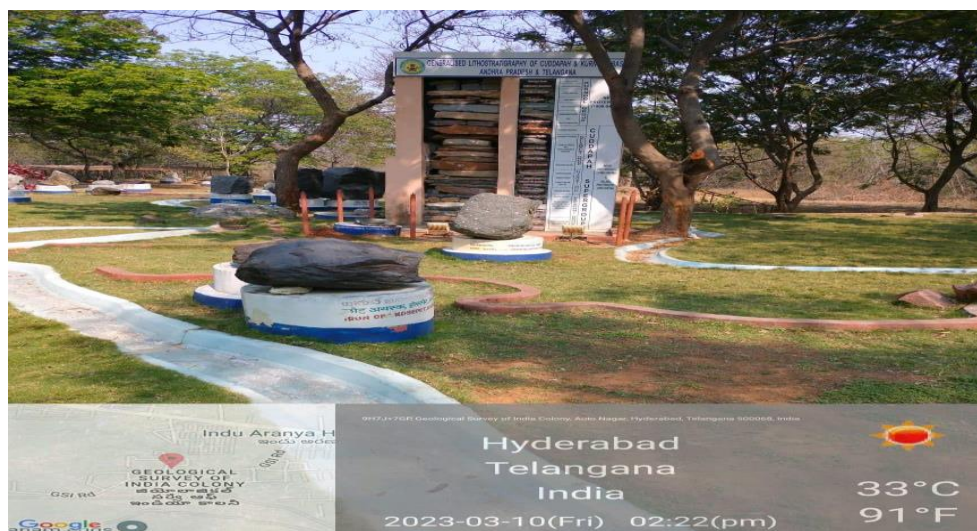

78. Study Tour to Geological Survey of India

Samskruthi Foundation organized a study tour to visit Geological Survey of India-Hyd, Uppal (Bandlaguda) which was offered to the students of **CMR College of Engineering & Technology** on behalf of **National Science Day** on 10th March 2023.

The Principle of CMR College of Engineering & Technology, **Major Dr V. A. Narayana** kind-heartedly took the decision to permit the students to visit Geological Survey of India. Under the guidance of **Dr. S. B. Fathima Mary, Dean FSA & counselor** and **Mr. B. Suresh Ram (HOD CEER)** a team of 27 students and one faculty visited GSI-Hyd, uppal (Bandlaguda).

In GSI, the head of the Samskruthi Foundation(Head) **Dr. Vivek Modi** received our team and we had a short interaction with the young Scientists named **Subhash Chakravarthi & Ankitha Singh**. The Study tour is all about Earth Sciences & exploration of various geological features which mainly deals with the study of rocks which are found at different places all over the country. With the study of rocks what kind of minerals can be extracted and finding of the natural resources like coal, natural gas & petroleum. In the visit the students will be able to see various exhibits, including formation of rocks at different states all over the country, there are different kinds of rocks available like pebbles, quartz ect. Some kind of rocks are rich in limestone, some are rich in iron-ore and some of the precious metals like Blue Corundum, Quartz, Sunstone, Agate, Labradorite ect and mineral collections based on the rock type and geological maps. Then we had a chart representation of the ages of rocks which are found deeper in the earth's core. Most of the rocks which are found in Cuddapah & Kurnool are represented in the chart based on the age of rocks.

Then we visited the George King William Museum where around 300 to 350 rock types which are found at different places all over the country are displayed and in the museum there is a collection of fossil fuels like Dianasour and its eggs, fossil rocks of rhinoceros teeth & head, fossil rocks of whale and fossil rocks of tree ect.

Then we moved to a meeting hall where we had a representation of GSI in the form of short video, how GSI was evolved in India, how it was started by British Scientist and the year. After the Independence it was taken into the control of India from Britishers, then the Indian Scientists were appointed and then we had a short interaction with the present **Director of GSI Mr. Subash Acharya**, who is a **senior scientist**. He guided the students with career options in GSI.

Students from Cmrct , A Veera Vardhan CSM (21H51A66H0), Md Sameer CSM (21H51A66J4), K Sowmya CSM (21H51A66F2), P Srinija CSM (21H51A66J7) won consolation Prize with cash Prize in IoT Hackathon- Conducted by VIT-AP conducted during 15th and 16th April 2023. They implemented a project titled “Automatic Path Hole Filler” which was SIP Project guided by CEER faculty.

83. One Week Faculty Development Program on Engineering Exploration & Practice

CMR COLLEGE OF ENGINEERING & TECHNOLOGY

(Autonomous)

Kandlakoya, Medchal, Hyderabad-501401

20th to 25th March 2023

CMR College of Engineering & Technology is sponsored by the MGR Educational Society, which was established in 2002. The Vision of the institution is to remain a premier academic institution striving continuously for excellence in technical education, research and render technological services to the nation.

We have started practicing the Project Based Learning (PBL) at our campus from A.Y 2018-2019. We are practicing Project Based Learning by introducing three courses namely Introduction to Social Innovation, Engineering Exploration & Practice, Social Innovation in Practice. These courses provide a student centered learning environment. 900+ Projects/Prototypes/Models were implemented and some of them are deployed in various communities. The FDP is scheduled to train the faculty so that they may implement these courses at their institution. The FDP also planned to share knowledge, experiences, achievements, resources required, recognitions and challenges being faced during the execution over the past four years.

Total 19 faculty have attended the workshop from CMRCET. The FDP is very fruitful and useful for the participants.

Content Covered

87. Samskruti Samvad session

Samskruthi Foundation organized a samvad session to the students of **CMR College of Engineering & Technology** in association with **CEER** under the guidance of **Mr. B. Suresh Ram** (HOD CEER) and the topic for the day was “**Digitalization in India**”. The Samvad session was held on 04/05/2023 in seminar hall at Block-III. The students enthusiastically participated in the program. Almost 8 speakers have presented their ideas on the topic which was given and 80+ participants have attended the program.

On behalf of **Samskruti Foundation Mrs. P. Neerada Krishna, Lt.Col (retd.)** have attended the program along with two coordinators participated, Mr. Madhukar & Mr.TuljaRam and the resource person for the day is **Mr. Balu Nagaraj** . He was born in Hyderabad and he completed high school from Scindia School, Gwalior, graduated from Osmania University. He is an entrepreneur in the specialization of mining and infrastructure industry involved in the construction of the National Highway in the states of Haryana Rajasthan, Uttar Pradesh, west bengal.

He is keenly interested in adventure sports and has completed a basic course in mountaineering from HMI Darjeeling and is a regular trekker and nature lover. Additionally, he is interested in wildlife and nature conservation and has traveled to many nature and wildlife reserves throughout the country. He is also associated with two wildlife NGOs and regularly takes part in tiger census and nature conservation programs. He is also an executive member of the Saraswati Mekong Friendship Association, working towards closer cultural ties between Bharat and South East Asia in the Samskruti Foundation.

The above mentioned 8 speakers are **Anuhya, Amuktha, Sneha, Mounika, Sathvik, Durga Prasad, & Sai Kiran BLS** of different branches have presented their ideas on the topic “**Digitalization in India**” after presentation there was a short debate session between the speakers & some participants and some of them had cleared their doubts in asking questions to

the participants. Then Mrs. P. Neerada Krishna, Lt.Col(retd.) gave introduction about Samskruti Foundation, what are the programs were taken up and conducted in various colleges in Hyderabad & Telangana.

Then finally Mr. Balu Nagaraj concluded the session and appreciated the Speakers. The major outcome of the program was to encourage the students to effectively participate in any kind of programs confidently by improving their presentation skills and communication skills and to get rid of stage fear.

Principal Major Dr. V. A. Narayana presented a memento to **Mr. Balu Nagaraj**.

Event Title: “Exhibition of Business Plans & Linkage with innovation Ambassador for Mentorship Support-Manage through YUKTI –NIR”

Dates: 15th – 17th 2023

Event Coordinator: Mr. B Suresh Ram, Assoc Prof

Organized by: Mr. K. Sathish, Asst Prof, Mr. B.Balakrishna, Asst Prof

Number of Students attended : 127

Number of Faculty attended : 17

Event Report:

The Event titled- “Exhibition of Business Plans & Linkage with innovation Ambassador for Mentorship Support-Manage through YUKTI –NIR” conducted by Centre for Engineering Education Research, CMRCET and Organized by Centre for innovation and Entrepreneurship (CIE) and MoE Institute Innovation Cell, government of India. This event is conducted under Centre for innovation and Entrepreneurship (CIE). This event is organized on 15th – 17th May 2023 through offline mode.

One has to tackle a business idea intensively in order to advance it and make it a true business objective. In many conversations with entrepreneurs and founders we perceive again and again that the business idea is either described insufficiently or not at all. A good idea is far from being automatically a good business idea. We often find that scientists, for instance, being quite convinced of a discovery they have made, hardly ever have any idea of approaching the market

Business ideas are developed by very different motivations. Many people may have ideas but only few accomplish the final realization of a business idea. Remember how Bill Gates, the founder of Microsoft, developed an operating system in his garage, unaware of the fact that his

business idea would one day become a dominating product worldwide. His idea of developing an operating system did not mature to a business until IBM charged him with the development of an operating system for the IBM PC. Of course, IBM was his greatest coup. He thus found a customer who was ready to pay him a price for his services. His business idea and his customer secured him his turnover. This enabled Bill Gates to found his company Microsoft. His business model resulted from the business idea and the revenue model. In order to develop a business model, must consider from the very beginning who would be prepared to pay a price for your business idea. There are two conditions you have to check:

- what product or service justifies your business idea, and
- what revenue you can realize with your product or service.

Around 26 student teams presented their business working models for three days. The students were mentored on innovation and how the projects and business model can be used to develop the startup and mentorship support. Many students along with various guests attended the Workshop day.

The students need to develop the Empathy based the person for the right idea and then communicate with the person who faces the problem and define the issue with the sequence of steps.

The observation plays a major role to find the root cause of the problem for identifying the solution and we get diversified solution based on the observation and make the converge that means connecting the dots and giving the optimal solution to initiate a startup.

The main objective of this workshop was to provide the introductory knowledge of the projects and provide an opportunity for the students to establish their learning experience. The outcome of the workshop was that students were able to show their project at higher level and the process boosted their self-confidence. 26 teams had participated in this event. They had represented their business models through posters and models.

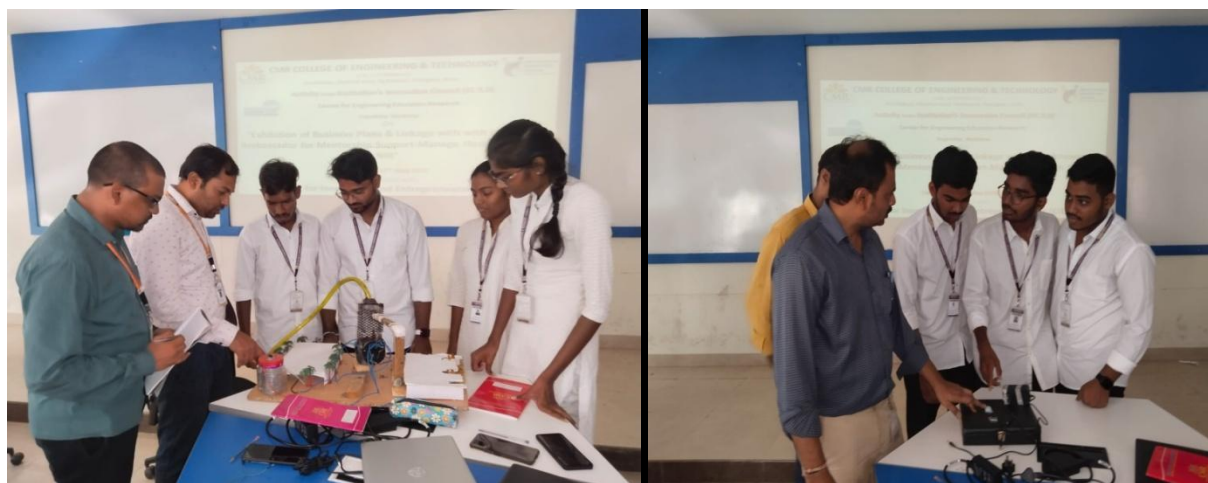

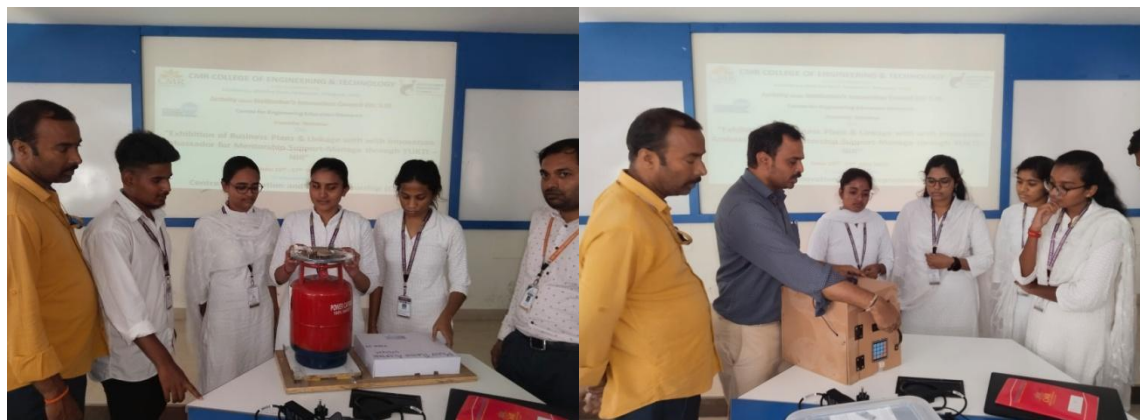

This Workshop on Exhibition of Business plans & Linkage with innovation Ambassador for Mentorship Support-Managed through YUKTI –NIR in Start Educational Institutions was

really an informative to the faculty and students. In this event, various aspects like professional skills, multi disciplinary skills, Technical skills and project management skills helps students to solve their personal and professional problems to start startups.

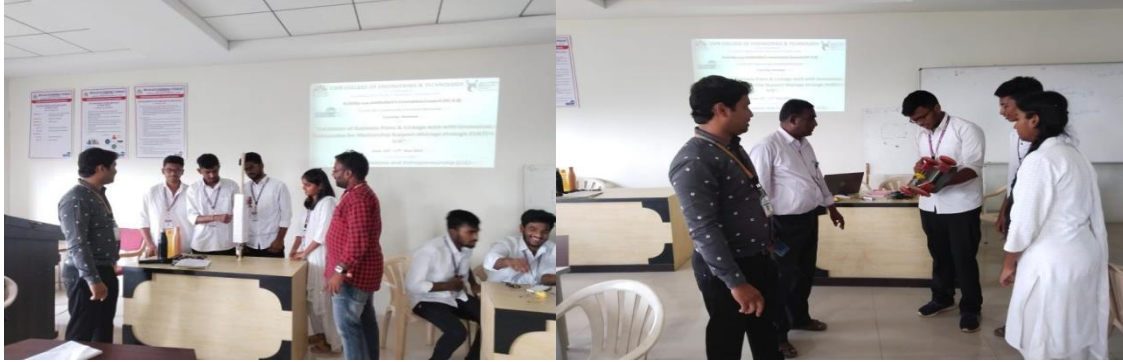

At the end vote of thanks by **Ms. B. Archana, Asst Prof**
