BOS Minutes of the meeting

20-06-2018

COMMON

1. Discussion on Engineering Exploration: why it is in HSMC better to put it in BSC. Frame the syllabus selecting 5 to 10 problems for the next two years based on the industrial and social issues.
2. Give specific names for mathematics.
3. Give credits and more weightage for mini projects and internships.
4. More number of open electives (more freedom for open electives).
5. Preferably three summer internship.
6. Would be better to include quality management course. ISO 9000 rules to be included in quality management
7. Try to shift engineering mechanics to II sem for Mechanical I possible
8. Instead of 4 0 0 4 put it as 3 1 0 4.
9. It is too early for the students to understand IOT at first year level. May be included in 2nd year.
10. Divide drawing into two categories for circuit and non circuit branches it may conduct exam on different days with different papers.
11. Proposal to introduce switching power conversion, Electrical Vehicles and SMPS for Mechanical and Electrical.

DEPARTMENT:

1. Dr. Raghu Ram suggested that it's better to have common course name for theory and lab (Applied physics and Engg physics lab)
2. Mr. Purohit gave a proposal to introduce switching power conversion, Electrical Vehicles and SMPS for Mechanical and Electrical.
3. All the syllabus must be covered in 2 text books and can include any number of reference books
4. Give the specifications for the experiments.
5. Course objective should be there at the beginning and outcomes at the end.
6. M.Tech: follow AICTE model curriculum with 68 credits.
