MD/GM/Trustee/CSRO/RM,

Epiroc Mining India Ltd.

Sub.: Scrutinized list & recommendation of students for the Epiroc Scholarship Award Program

Dear Team.

With reference to the above subject, we would like to recommend the students mentioned in the attached letter for the Epiroc Scholarship Award Program. Institute has invited applications from the students and scrutinized the applications per guidelines provided by the Epiroc and based on details and documents submitted by the students. We recommend and request you to consider our students for the Epiroc Scholarship Award Program under the CSR initiative of Epiroc.

On behalf of our institute, we express our sincere gratitude to the Epiroc team for this initiative. This will be very helpful to students. Hoping for a long-term association in the future.

Thanks and Regards

Principal/Trustee
CMR COLLEGE OF ENGG. & TECH.
Kandlakoya (V), Medchal Road,
CMR College of Engineering & Technology
Hyderabad-501401.

Epiroc Mining India Ltd.

Sub: Reference for family income source (3e)

Respected sir/Madam,

I am BOLLAMPALLY SUSHMA LATHA bearing roll no: 20H51A6628 pursuing B.Tech in CMR COLLEGE OF ENGINEERING AND TECHNOLOGY would like to get to your kind notice that, the only source of our family income is through my mother who works as a tailor on daily wages basis. In this regard I kindly request you to consider my letter as a proof of family income source.

Thanking You

It is verified from our end and it is true that the student's mother works as a tailor on daily wages.

Yours faithfully
B. Sushma Latha.

21H55A6605 G. Akanksha

Project Objective

To reduce violation of traffic rules and to reduce accidents, from Signal jumping.

Issue

- Violating traffic rules and regulations.
- Accidents due to SIGNAL JUMPING.

Existing systems

- Tyre killers are installed to reduce accidents from wrong lane driving.
- Tyre killers are essentially a metal strip that acts as a speed breaker for the person driving on the correct side.

Gaps in the existing system

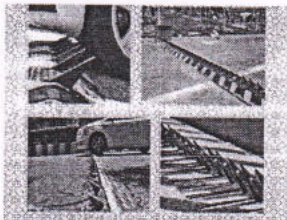

- Difficult for ambulance for choosing shortest path
- May divert traffic to parallel residential streets

Advantages of proposed solution

- ❖ We can control speed limit
- ❖ We can prevent injuries and death
- ❖ Everyone will follow traffic rules
- ❖ Crime rate can be decreased
- ❖ Tyre Killers used as road blockers

Methodology

Implementation of Tyre killers for decreasing speed limit (acting as speed breaker) and also wrong route riders.

To avoid jumping of signals, Tyre killers should be installed in all the lanes of the cross road. Tyre killers should be made in such a way that they can move i.e. they can come over the road and as well as the can go beneath the road.

In this project we have modified the existing tyre killers. We will modify the existing tyre killers. We will use a mechanical system such that when red light comes then we will rotate the liver of the tyre killers .So that the tyre killers comes above the road .And when green light come s then we rotate the liver so that it goes beneath the road .We complete the project in such a way that when red light comes the spikes comes above the road and when orange light comes, the spikes should go beneath the road.

To avoid jumping of signals, Tyre killers should be installed in all the lanes of the cross road, by this innovation we can control Signal Jumping.
