Project Objective

Reduce human intervention, promote health, and ensure a sanitary environment in both public and private washrooms.

Existing systems

1. SHE Toilets: Mobile SHE toilets are innovative public sanitation solution designed specifically for women.
2. E-Toilets by ESS: efficient water management systems that minimize water consumption & maintaining effective sanitation standards.

Issue

The inadequacy of traditional cleaning methods in public restrooms and shared toilet facilities leads to challenges in maintaining cleanliness, hygiene, and sanitation. Manual labor and chemical disinfectants often prove ineffective, labor-intensive, and environmentally harmful.

User requirement

Module should be economical, safe, scalable and require less maintenance while Reducing the reliance on chemical disinfectants by employing environmentally friendly cleaning solutions and efficient water usage.

Gaps in the existing system

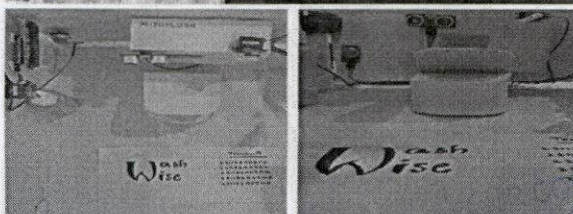

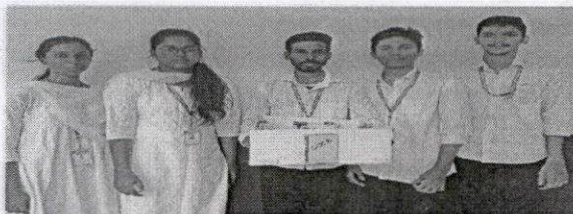

Fragmented Systems:

IoT-based solutions often integrate various devices but may suffer from lack of cohesion, leading to compatibility and interoperability issues.

Complexity and Usability:

The complexity of IoT systems can result in challenging installations and maintenance, reducing usability for average users.

Methodology

The Arduino Mega serves as the central microcontroller, processing signals from ultrasonic sensors to detect the presence of individual in the washroom.

The MQ-135 gas sensor monitors ammonia levels. An LCD display, interfaced via an I2C module, presents real-time data of ammonia levels and occupancy status.

This integration of hardware components facilitates automated control of washroom functionalities, optimizing resource utilization and promoting hygiene.

Subject: Reference for family income source.

Respected sir/madam,

I am Joshi Krishna Lahari bearing Roll.No: 23H51A6628 pursuing B.Tech in CMR COLLEGE OF ENGINEERING AND TECHNOLOGY would like to bring to your kind notice that, the only income for our family is through my father who is a Purohit. He works in a temple and sometimes he participates/performs other pooja activities in some seasons. It would be very difficult for him to bear the fee of me and my brother. So, sir/madam, I kindly request you to consider my letter as a proof of my family income source.

Thanking you.

Yours sincerely

Subject: Application for Scholarship

Respected Sir/Madam,

I am Ankitha Ravella, currently pursuing my B.Tech in Computer Science & Engineering (Cyber Security). I am in my second year and have consistently maintained a strong Academic record.

I come from a humble background. My family once owned a small piece of land, about 1 acre, which we had to sell to fund the education of my brother and myself. My father who was our primary source of support, tragically passed away, leaving us in a challenging finance situation. And my mother is having suffering a problem called knee pain. My mother now works tirelessly to support our education and household expenses.

I am writing to you to apply for the scholarship is offered by your esteemed organisation. This scholarship is crucial for me as it will significantly alleviate the financial burden on my family allowing me to focus more on my studies & less on the financial challenges. My family is my greatest support, but due to our limited financial resources, managing the expenses of my higher education has become increasingly difficult.

With this scholarship, I will be able to purchase necessary study materials, access advanced courses & workshops, & participate in academic & extracurricular activities that will further my knowledge & skills. Additionally, I plan to invest in tools & resources that will assist me in my ongoing & future projects

Strongly Recommended

I am a dedicated & hard working student, always striving to excel in my studies and contribute positively to society through my work. Receiving this scholarship will not only provide me with financial assistance but also serve as a motivation to achieve my goals & give back to the community.

Thank you for considering my application. I am hopeful that you will provide me with the opportunity to benefit from this scholarship, which will be instrumental in shaping my future.

yours Sincerely,

-Ankitha Ravetta

Subject: Application for Scholarship

Dear Sir/Madam

I am writing to apply for the scholarship program offered by Epinoe. My name is M.B. Sharyya, and I am currently pursuing B.Tech II year at CMR College of Engineering and Technology. I come from a difficult family background. My mother passed away 2 years back and my father is now a single parent, supporting me and my sister, who is also studying.

Given our family's circumstances, managing educational expenses has become increasingly difficult. My father's income is limited, this scholarship would greatly alleviate the financial burden on our family, allowing me to focus on my studies.

I plan to use the funds for tuition, books, and other necessary expenses. Additionally, it will enable me to participate in workshops that will enhance my skills and knowledge.

My goal is to pursue a career in digital forensics, where I aim to help uncover and solve cybercrimes. This scholarship would be a crucial step towards achieving this goal.

Thank you for considering my application. I am eager to make the most of this opportunity.

Sincerely,

Meenuga Boya Sharyya
